ABP-309158-21

The submissions on this file and the Inspector's report were considered at a Board meeting held on 11/08/2021.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the nature of the proposed development, the zoning of the site, the locational context, the scale of the development proposed and the existing road infrastructure serving the development, it is considered that, subject to compliance with the conditions set out below, the proposed development would be in accordance with the provisions of the Fingal County Development Plan 2017-2023, would be acceptable in terms of pedestrian and traffic safety and public health, and would not seriously injure the amenities of the area. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars submitted on the 21st day of August, 2020, and the 12th of November 2020, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Notwithstanding the exempted development provisions of the Planning and Development Regulations, 2001, and any statutory provision amending or replacing them, the use of the proposed development shall be restricted to the use as described in the planning application (as specified in the lodged documentation), that is, as motor vehicle service and sales facility building 'A' and 'B' and the uses described for ancillary Building 'C', unless otherwise authorised by a prior grant of planning permission, and in particular shall not be used as retail shops, notwithstanding the provisions of Class 14 (a) of Part 1 of the Schedule 2 to the Planning and Development Regulations 2001, as amended.

Reason: In the interests of clarity and to protect the retail function of Airside Retail Park.

3. Details of the materials, colours and textures of all the external finishes to the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of the visual amenities of the area.

4. Apart from the signage shown on the submitted drawings, no further advertisement or advertisement structure or flag poles, the exhibition or erection of which would otherwise constitute exempted development under the Planning and Development Regulations 2001, or any statutory provision amending or replacing them, shall be displayed or erected on the building or within the curtilage of the site unless authorised by a further grant of planning permission.

No signage shall be internally illuminated.

Reason: In the interest of the visual amenity, and to allow the planning authority to assess any further signage through the statutory planning process.

- 5(a) The vehicular access arrangements, internal road network and car parking layout to service the proposed development shall comply with the detailed requirements of the planning authority for such works.
- (b) The vehicular access arrangements shall not impede or interfere with the access road to serve the adjoining lands as granted by the Council under Register Reference F17A/0392.
- (c) The car and bicycle parking facilities, hereby permitted, shall be reserved solely to serve the proposed development. There shall be no associated parking outside of the site on the access roads.
- (d) Cycleways and footpaths shall be provided between the proposed front boundary and the public road carriageway in accordance with the requirements of the planning authority.

Reason: In the interests of clarity and to ensure a satisfactory standard of development and in the interest of permeability.

6. A comprehensive boundary treatment and landscaping scheme shall be submitted to and agreed in writing with the planning authority, prior to commencement of development. This scheme shall include the following:-
- (a) Details of all proposed hard surface finishes, including samples of proposed paving slabs/materials for footpaths, kerbing and road surfaces within the development;
 - (b) proposed locations of trees and other landscape planting in the development, including details of proposed species and settings;
 - (c) details of proposed street furniture, including bollards, lighting fixtures and seating;
 - (d) details of proposed boundary treatments at the perimeter of the site, including heights, materials and finishes.

The boundary treatment and landscaping shall be carried out in accordance with the agreed scheme.

Reason: In the interest of visual amenity.

7. Prior to the commencement of development, the applicant/developer shall submit an updated and revised Site Specific Flood Risk Assessment in accordance with the requirements of "The Planning System and Flood Risk Management Guidelines" November 2009. This shall comply with the detailed requirements of the planning authority for such works.

Reason: In the interests of flood protection

8. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

9. Prior to commencement of development, the developer shall enter into water and/or wastewater connection agreements with Irish Water.

Reason: In the interest of public health.

10. (a) During the operational phase of the proposed development, the noise level arising from the development, as measured at the nearest noise sensitive location or at any point along the boundary of the site shall not exceed:-

(i) An Leq, 1h value of 55 dB(A) during the period 0800 to 2200 hours from Monday to Saturday inclusive.

(ii) An Leq, 15 min value of 45 dB(A) at any other time. The noise at such time shall not contain a tonal component.

At no time shall the noise generated on site result in an increase in noise level of more than 10 dB(A) above background levels at the boundary of the site.

(b) All sound measurement shall be carried out in accordance with ISO Recommendation 1996:2007: Acoustics - Description and Measurement of Environmental Noise.

Reason: To protect the residential amenities of property in the vicinity of the site.

11. The hours of opening shall not exceed 0800 to 1900 Monday to Saturday and shall be closed on Sundays and Bank Holidays.

Reason: In the interests of clarity and of the amenities of proximate residential development.

12. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development. Any existing over ground cables shall be relocated underground as part of the site development works.

Reason: In the interests of visual and residential amenity.

13. Lighting shall be provided in the car park area in accordance with a scheme, details of which shall be submitted to, and agreed in writing with, the planning authority prior to the commencement of development. Such lighting shall be designed to avoid light pollution on neighbouring properties.

Reason: In the interests of amenity and public safety.

14. A plan containing details for the management of waste within the development, including the provision of facilities for the storage, separation and collection of the waste and, in particular, recyclable materials, shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Thereafter, the waste shall be managed in accordance with the agreed plan.

Reason: To provide for the appropriate management of waste and, in particular recyclable materials, in the interest of protecting the environment.

15. The developer shall facilitate the archaeological appraisal of the site and shall provide for the preservation, recording and protection of archaeological materials or features which may exist within the site. In this regard, the developer shall:

(a) notify the planning authority in writing at least four weeks prior to the commencement of any site operation (including hydrological and geotechnical investigations) relating to the proposed development, and

(b) employ a suitably-qualified archaeologist prior to the commencement of development. The archaeologist shall assess the site and monitor all site development works.

The assessment shall address the following issues:

(i) the nature and location of archaeological material on the site, and

(ii) the impact of the proposed development on such archaeological material.

A report, containing the results of the assessment, shall be submitted to the planning authority and, arising from this assessment, the developer shall agree in writing with the planning authority details regarding any further archaeological requirements (including, if necessary, archaeological excavation) prior to commencement of construction works.

In default of agreement on any of these requirements, the matter shall be referred to An Bord Pleanála for determination.

Reason: In order to conserve the archaeological heritage of the area and to secure the preservation (in-situ or by record) and protection of any archaeological remains that may exist within the site.

16. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Fridays inclusive, between 0700 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

17. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including dust, noise and traffic management measures and off-site disposal of construction/demolition waste.

Reason: In the interests of public safety and residential amenity

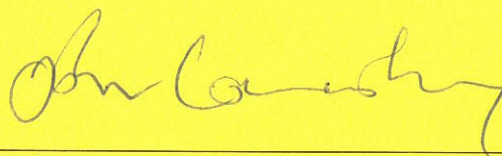

18. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the provision and satisfactory completion of roads, footpaths, cycleways, carparking, watermains, drains, and other services required in connection with the development, coupled with an agreement empowering the local authority to apply such security or part thereof to the satisfactory completion of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion of the development.

19. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
