ABP-309185-21

The submissions on this file and the Inspector's report were considered at a Board meeting held on 05/05/2021.

The Board decided to refuse permission, generally in accordance with the Inspector's recommendation, for the following reasons and considerations.

Reasons and Considerations

The site of the proposed development is located within an "Area Under Strong Urban Influence" as set out in the "Sustainable Rural Housing Guidelines for Planning Authorities" issued by the Department of the Environment, Heritage and Local Government in April 2005 and within an area under strong urban influence as designated within the Cork County Development Plan 2014. Furthermore, the subject site is located in an area that is designated under urban influence, where it is national policy, as set out in National Policy Objective 19 of the National Planning Framework, to facilitate the provision of single housing in the countryside, based on the core consideration of demonstrable economic or social need to live in a rural area. Having regard to the documentation submitted with the application and appeal, the Board is not satisfied that the applicant has a demonstrable economic or social need to live in this rural area or that the applicant's housing need cannot be met in a town or rural settlement. It is considered, therefore, that the applicant does not come within the scope of the housing need criteria as set out in the Guidelines and in national policy for a house at this location and that the proposed development would contribute to the encroachment of random rural development in the area, would militate against the preservation of the rural environment and the efficient

provision of public services and infrastructure. The proposed development would, therefore, be contrary to the Ministerial Guidelines and to the over-arching national policy and having regard to the provisions of the Cork County Development Plan 2014, and would be contrary to the proper planning and sustainable development of the area.
