The submissions on this file and the Inspector's report were considered at a Board meeting held on 28/05/2021.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the National Planning Framework, the Wexford County Development Plan 2013 -2019 (as extended), the Telecommunications Antennae and Support Structures – Guidelines for Planning Authorities, 1996 and associated Circular Letter PL07/12, the existing pattern of development in the area and existing use of the site, and the nature and scale of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the landscape character and visual amenity of the area or the amenities of property in the vicinity. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The site shall be landscaped in accordance with a comprehensive scheme of landscaping, details of which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

3. Details of the proposed colour scheme for the telecommunications structure, ancillary structures and fencing shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of the visual amenities of the area.

4. Within six months of the date of cessation of use, the telecommunications structure and ancillary structures shall be removed, and the site shall be reinstated at the developer's expense. Details relating to the removal and reinstatement shall be submitted to, and agreed in writing with, the planning authority prior to the date of cessation of the use of the structure.

Reason: In the interest of the visual amenities of the area.

5. Surface water drainage arrangements for the proposed development shall comply with the requirements of the planning authority.

Reason: In the interest of public health.

6. No advertisement or advertisement structure shall be erected or displayed on the proposed structure or its appendages or within the curtilage of the site without a prior grant of planning permission.

Reason: In the interest of the visual amenities of the area

Board Member

A large, stylized handwritten signature in black ink, appearing to be 'Paul Hyde', is written over a horizontal line. The signature is fluid and cursive, with a large loop at the top and a long, sweeping tail that extends downwards and to the left.
