Reasons and Considerations

Having regard to the parent permission for the site ABP-303706-19 as subsequently amended by 3099/20, the nature of the proposed development, the existing urban environment, the Z9 zoning objective that applies to Wilton Square, the unzoned nature of the public roads, site's location within a designated Conservation Area and partly within an Architectural Conservation Area, the site's close proximity to public transport and existing bicycle infrastructure, the sites close proximity to the Grand Canal pNHA and subject to compliance with the conditions set out below, the proposed development would restore the historic integrity of original formal layout of Wilton Square, would contribute positively to the character and distinctiveness of the designated conservation area, would enhance the character and appearance of the conservation area and would be in accordance with Policy CHC4 of the Dublin City Development Plan 2016-2022. The proposal would not individually (or in combination with other plans or projects) be likely to have significant effects on the environment nor would it be likely to have a significant effect on designated European Sites, it would not injure the visual amenities, built heritage or character of the area and would be acceptable in terms of traffic and road safety.
