**Board Direction  
BD-009012-21  
ABP-309693-21**

The submissions on this file and the Inspector's report were considered at a Board meeting held on 02/09/2021.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to the provisions of the national and regional policy, the Dublin City Development Plan 2016-2022, the Telecommunications Antennae and Support Structures – Guidelines for Planning Authorities, 1996 and associated Circular Letter PL07/12 and the nature and scale of the proposed development, it is considered that subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities and character of the area or of property in the vicinity and would assist in the provision of essential telecommunications coverage to the area. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

### **Conditions**

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application and with the appeal, except as may otherwise be required in order to comply with the following conditions.  
Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior

to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

**Reason:** In the interest of clarity.

2. Prior to commencement of development, details of the proposed colour scheme for the telecommunications structures and ancillary structures shall be submitted to, and agreed in writing with, the planning authority.

**Reason:** In the interest of the visual amenities of the area.

3. Notwithstanding the provisions of the Planning and Development Regulations, 2001, and any statutory provision amending or replacing them, the telecommunication structures shall not be altered and no additional apparatus shall be attached, without a prior grant of planning permission.

**Reason:** To clarify the nature and extent of the permitted development to which this permission relates and to facilitate a full assessment of any future alterations.

4. No advertisement or advertisement structure shall be erected or displayed on the proposed structure or its appendages or within the curtilage of the site without a prior grant of planning permission.

**Reason:** In the interest of the visual amenities of the area.

5. Surface water drainage arrangements for the proposed development shall comply with the requirements of the planning authority.

**Reason:** In the interest of public health.

6. (a) In the event of the proposed structure becoming obsolete and being decommissioned, the developers shall, at their own expense, remove the mast, antenna and ancillary structures and equipment.

(b) The site shall be reinstated upon the removal of the telecommunication structures and ancillary structures. Details of the reinstatement shall be submitted to, and agreed in writing with, the planning authority prior to the commencement of development.

**Reason:** In the interest of orderly development.

7. The developer shall provide and make available at reasonable terms the proposed support structure for the provision of mobile telecommunications antenna of third-party licenced telecommunications operators.

**Reason:** To avoid a multiplicity of telecommunications structures in the area, in the interest of visual amenity, and proper planning and sustainable development.
