**Board Direction  
BD-008561-21  
ABP-310133-21**

The submissions on this file and the Inspector's report were considered at a Board meeting held on 17/06/2021.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to the location of the site, the Z2 – Residential Neighbourhoods (conservation areas)' zoning within the Dublin City Development Plan 2016-2022, the nature and scale of the proposed development, and to the existing pattern of development in the vicinity, it is considered that, subject to compliance with the conditions set out below, the proposed development would not detract from the character of the area in which it is located and would not seriously injure the residential amenities of the area or of property in the vicinity and would otherwise comply with the provisions of the Dublin City Development Plan 2016-2022. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

### **Conditions**

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree

such details in writing with the planning authority prior to the commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

**Reason:** In the interest of clarity.

2. The permitted storage shed shall be only used for domestic purposes incidental to the enjoyment of the dwelling house on the site.

**Reason:** In the interest of residential amenity.

3. Details of the materials, colours and textures of all the external finishes to the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to the commencement of the development.

**Reason:** In the interest of visual amenity.

4. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services, details of which shall be submitted to, and agreed in writing with, the planning authority prior to the commencement of development.

**Reason:** In the interest of public health and to ensure a proper standard of development.

5. Site development and building works shall be carried out between the hours of 0700 to 1800 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays or public holidays. Deviation from these times shall only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

**Reason:** In order to safeguard the residential amenities of property in the vicinity.

6. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of the development. The plan shall provide details of intended construction practice for the development, including noise management measures and off-site disposal of construction/demolition waste.

**Reason:** In the interest of public safety and residential amenity.

7. The site development works, and construction works shall be carried out in such a manner as to ensure that the adjoining streets are kept clear of debris, soil and other material and if the need arises for cleaning works to be carried out on the adjoining public roads, the cleaning works shall be carried out at the developer's expense

**Reason:** To ensure that the adjoining roadways are kept in a clean and safe condition during construction works in the interest of orderly development

8. Notwithstanding the exempted development provisions of the Planning and Development Regulations, 2001, and any statutory provision replacing or amending them, no development falling within Class 1 or Class 3 of Schedule 2, Part 1 of those Regulations shall take place within the curtilage of the house, without a prior grant of planning permission.

**Reason:** In order to ensure that a reasonable amount of rear garden space is retained for the benefit of the occupants of the dwelling house.

**Board Member**

Paul Hyde
