The submissions on this file and the Inspector's report were considered at a Board meeting held on 16/11/2021.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the relevant provisions of the Galway County Development Plan, 2015-2021, to the established pattern and character of development in the vicinity of the subject site, to the information submitted with the planning application and appeal, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities of properties in the area, would be acceptable in terms of pedestrian and traffic safety and convenience and would not be prejudicial to public health. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior

to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The dwelling shall be first occupied as a place of permanent residence by the applicant, members of the applicant's immediate family or their heirs, and shall remain so occupied for a period of at least seven years thereafter unless consent is granted by the planning authority for its occupation by other persons who belong to the same category of housing need as the applicant. The applicant shall enter into a written agreement with the planning authority under section 47 of the Planning and Development Act, 2000 to this effect.

Within two months of the occupation of the proposed dwelling, the applicant shall submit to the planning authority a written statement of confirmation of the first occupation of the dwelling in accordance with this agreement and the date of such occupation.

Reason: In the interests of the proper planning and sustainable development of the area.

3. Details of the wayleave agreement committed to in the planning application documents in respect to the water supply for the development, shall be submitted to the planning authority, prior to occupation of the dwelling.

Reasons: In the interests of the proper planning and sustainable development of the area.

4. Prior to the commencement of the development, the developer shall submit to, and agree in writing with, the planning authority details of all the materials, textures and colours for the external facades including fenestration.

Reason: In the interest of visual and residential amenity.

5. The site shall be landscaped in accordance with a comprehensive scheme of landscaping, to include use of indigenous species and hedgerow planting along the site boundaries details of which shall be submitted to, and agreed

in writing with, the planning authority prior to commencement of development. Any plants which die, are removed or become seriously damaged or diseased, following the completion of the development, shall be replaced within the next planting season with others of similar size and species, unless otherwise agreed in writing with the planning authority.

Reason: In the interest of visual amenity.

6. The effluent treatment and disposal system shall be located, constructed and maintained in accordance with the details submitted to the planning authority and in accordance with the requirements of "Wastewater Treatment Manual: Treatment Systems for Single Houses, (p.e. less than or equal to 10)", published by the EPA in 2010. Arrangements in relation to the ongoing maintenance of the system shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Within three months of the first occupation of the dwelling, the developer shall submit a report from a suitably qualified person with professional indemnity insurance certifying that the effluent treatment system has been installed and commissioned in accordance with the approved details and is working in a satisfactory manner in accordance with the standards set out in the EPA document.

Reason: In the interest of clarity and public health.

7. Drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services. No surface water shall be allowed to discharge onto the public road or adjoining properties.

Reason: In the interest of orderly development and public health.

8. Site development and building works shall be carried out only between the hours of 07.00 to 18.00 Mondays to Fridays inclusive, between 08.00 to 14.00 on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the amenities of property in the vicinity.

9. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
