ABP-310770-21

The submissions on this file and the Inspector's report were considered at a Board meeting held on 06/10/2021.

The Board decided to refuse permission, generally in accordance with the Inspector's recommendation, for the following reasons and considerations.

Reasons and Considerations

1. The proposed development would result in the intensification of the use of an existing access onto the N72 National Secondary Road at a location where the maximum speed limit of 100 km/h applies. Having regard to the location of the site, it is considered that the proposed development by itself or by the precedent it would set for other development, would endanger public safety by reason of traffic hazard and obstruction of road users, would contravene national policy in relation to the control of development on national roads as set out in the Spatial Planning and National Roads Guidelines for Planning Authorities issued by the Department of the Environment, Community and Local Government in January, 2012, which seeks to secure the efficiency, capacity and safety of the national road network and would contravene materially Objective TM 3-1 of the Cork County Development Plan that restricts access onto national roads, in order to protect the substantial investment in the national road network, to improve carrying capacity, efficiency and safety and to prevent the premature obsolescence of the network. The proposed development would, therefore, be contrary to the proper planning and sustainable development of the area.

2. The proposed development in providing for a shared entrance would contravene materially a condition attached to an existing permission for development, namely condition number two attached to the permission granted by Cork County Council pm the 12th day of October 2020 under planning register reference number 20/05502.
