Board Direction
BD-010414-22
ABP-311064-21

The submissions on this file and the Inspector's report were considered at a Board meeting held on 01/04/2022.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the inner-city location of the site in close proximity to a wide range of public transport options and community and social facilities, the provisions of the Dublin City Council Development Plan 2016-2022, the Sustainable Urban Housing: Design Standards for New Apartments Guidelines for Planning Authorities issued by the Department of Housing, Local Government and Heritage in December, 2020, the Urban Development and Building Heights - Guidelines for Planning Authorities issued by the Department of Housing, Local Government and Heritage in December, 2018, the Guidelines for Planning Authorities on Sustainable Residential Development in Urban Areas issued by the Department of Environment, Heritage and Local Government in 2009, and the National Planning Framework, which seeks to direct new residential development in cities into built-up serviced areas, the pattern and character of development in the area and the design and scale of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would constitute an acceptable quantum of development in this accessible urban location, would not seriously injure the amenities of surrounding properties or seriously detract from the character or built heritage of the area, and would be acceptable in terms of pedestrian and traffic

safety. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application as amended by the further plans and particulars submitted to the planning authority on the 17th day of June, 2021, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The proposed development shall be amended as follows:

(a) A rooflight shall be installed to Unit No. 6.

(b) Privacy screening shall be erected along the western boundary of the terrace serving Unit No. 7.

Proposals in respect of (a) and (b) above shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of protecting the residential amenity of existing and proposed properties and the visual amenity of the area.

3. Details of the materials, colours and textures of all the external finishes to the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

4. Water supply and drainage arrangements, including the disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health

5. Prior to commencement of development, the developer shall enter into water and wastewater connection agreement(s) with Irish Water.

Reason: In the interest of public health

6. Proposals for a development name, numbering scheme and associated signage shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, all signs and house numbers shall be provided in accordance with the agreed scheme. The proposed name(s) shall be based on local historical or topographical features, or other alternatives acceptable to the planning authority. No advertisements / marketing signage relating to the name(s) of the development shall be erected until the developer has obtained the planning authority's written agreement to the proposed name(s).

Reason: In the interest of urban legibility and to ensure the use of locally appropriate place names for new residential areas.

7. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances subject to the prior written agreement of the planning authority.

Reason: In the interest of residential amenities of surrounding properties and in the interest of clarity.

8. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice

for the development, including hours of working, management measures for noise, dust and dirt, and construction traffic management proposals.

Reason: In the interest of public safety and residential amenity.

9. Construction and demolition waste shall be managed in accordance with a construction waste and demolition management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall be prepared in accordance with the “Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects”, published by the Department of the Environment, Heritage and Local Government in July 2006. The plan shall include details of waste to be generated during site clearance and construction phases, and details of the methods and locations to be employed for the prevention, minimisation, recovery and disposal of this material in accordance with the provision of the Waste Management Plan for the Region in which the site is situated.

Reason: In the interest of sustainable waste management.

10. (a) A plan containing details for the management of waste (and, in particular, recyclable materials) within the development, including the provision of facilities for the storage, separation and collection of the waste and, in particular, recyclable materials and for the ongoing operation of these facilities shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, the waste shall be managed in accordance with the agreed plan.

(b) The plan shall provide for screened communal bin stores, which shall be adequately ventilated, drained and illuminated. The design and location of same shall be included in the details to be submitted.

Reason: In the interest of residential amenity, and to ensure the provision of adequate refuse storage.

11. Prior to the occupation of the development, a Mobility Management Plan / Residential Travel Plan shall be submitted to and agreed in writing with the planning authority. This shall provide for incentives to encourage the use of public transport, cycling, walking and carpooling by residents/occupants/staff employed in the development and to reduce and regulate the extent of parking. The plan shall be prepared and implemented by the management company for all units within the development.

Reason: In the interest of encouraging the use of sustainable modes of transport and reflecting the needs of pedestrians and cyclists.

12. Any alterations to the public road shall be in accordance with the requirements of the planning authority and where required, all repairs to the public road and services shall be carried out to the satisfaction of the planning authority at the applicant's expense.

Reason: In the interests of clarity, public safety and amenity.

13. The management and maintenance of the proposed development following its completion shall be the responsibility of a legally constituted management company. A management scheme providing adequate measures for the future maintenance of public open spaces, roads and communal areas shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: To provide for the satisfactory future maintenance of this development in the interest of residential amenity.

14. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development. All existing over ground cables shall be relocated underground as part of the site development works.

Reason: In the interests of visual and residential amenity.

15. No additional development, including lift motor enclosures, air handling equipment, storage tanks, ducts or external plant, or telecommunication antennas, shall be erected at roof level other than those shown on the plans and particulars lodged with the application. All equipment such as extraction ventilation systems and refrigerator condenser units shall be insulated and positioned so as not to cause noise, odour or nuisance at sensitive locations.

Reason: In the interests of visual and residential amenities.

16. (a) The historic wall along the western site boundary shall be retained and protected from damage during construction, and shall be repaired in accordance with the specifications, method statement and drawings submitted to the planning authority on the 17th day of June 2021.

(b) A conservation expert shall be employed to manage, monitor and implement the works on the site and to ensure adequate protection of the retained and historic fabric during the works. In this regard, all permitted works shall be designed to cause minimum interference to the retained building and facades structure and/or fabric.

(c) All repair works to the boundary wall shall be carried out in accordance with best conservation practice as detailed in the application and the Architectural Heritage Protection Guidelines for Planning Authorities issued by the Department of Arts, Heritage and the Gaeltacht in 2011.

Reason: To ensure that the integrity of the retained structures is maintained and that the structures are protected from unnecessary damage or loss of fabric.

17. The developer shall facilitate the preservation, recording and protection of archaeological materials or features that may exist within the site. In this regard, the developer shall -

- (a) notify the planning authority in writing at least four weeks prior to the commencement of any site operation (including hydrological and geotechnical investigations) relating to the proposed development,
- (b) employ a suitably-qualified archaeologist who shall monitor all site investigations and other excavation works, and
- (c) provide arrangements, acceptable to the planning authority, for the recording and for the removal of any archaeological material which the authority considers appropriate to remove.

In default of agreement on any of these requirements, the matter shall be referred to An Bord Pleanála for determination.

Reason: In order to conserve the archaeological heritage of the site and to secure the preservation and protection of any archaeological remains that may exist within the site.

18. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the provision and satisfactory completion of roads, footpaths, watermains, drains, open space and other services required in connection with the development, coupled with an agreement empowering the local authority to apply such security or part thereof to the satisfactory completion of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion of the development.

19. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to

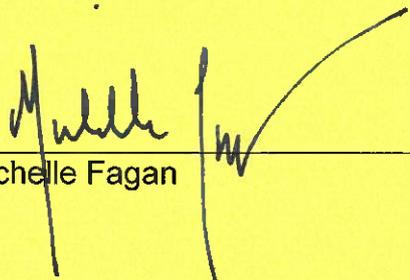

commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

20. The developer shall pay to the planning authority a financial contribution in respect of the Luas Cross City (St. Stephen's Green to Broombridge Line), in accordance with the terms of the Supplementary Development Contribution Scheme made by the planning authority under section 49 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Supplementary Development Contribution Scheme made under section 49 of the Act be applied to the permission.

Board Member

Michelle Fagan

Date: 01/04/2022

Note: In not agreeing with the Inspector's recommendation to set back the 4th storey on the northern site boundary with Henrietta Lane, it considered that the height, form and massing of the proposed development, the location on this corner site, the context of the rear facades of the Protected Structures on Henrietta Street, and of the existing six storey block onto the lane, would not be excessive and would be an acceptable design response to the existing context of the site.
