ABP-311372-21

The submissions on this file and the Inspector's report were considered at a Board meeting held on 08/03/2022.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

It is considered that, subject to compliance with the conditions set out below, the proposed development would be consistent with the objectives of the Ballincollig Carrigaline Municipal District Local Area Plan 2017 and Cork County Development Plan 2014, would be acceptable in terms of height, scale, mass, form and uses, would represent an appropriate design response to the site's context, would not seriously injure the visual amenities of the area, and would otherwise be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Details of the materials, colours and textures of all the external finishes to the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

3. The hours of operation of the proposed retail store, shop and café shall be agreed in writing with the planning authority prior to the first occupation of those units.

Reason: In the interest of the amenities of property in the vicinity.

4. Details of all external signage shall be agreed in writing with the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

5. A comprehensive boundary treatment and landscaping scheme shall be submitted to and agreed in writing with the planning authority, prior to commencement of development. This scheme shall include the following:-

- (a) details of all proposed hard surface finishes, including samples of proposed paving slabs/materials for footpaths, kerbing and road surfaces within the development;
- (b) proposed locations of trees and other landscape planting in the development, including details of proposed species and settings;
- (c) details of proposed street furniture, including bollards, lighting fixtures and seating; and
- (d) details of proposed boundary treatments at the perimeter of the site, including heights, materials and finishes of perimeter walls.

The boundary treatment and landscaping shall be carried out in accordance with the agreed scheme.

Reason: In the interest of visual and residential amenity.

6. Prior to the commencement of development, the following shall be submitted to, and agreed in writing, with the planning authority:

- (a) operational traffic management provisions, inclusive of vehicular entrance controls, footpath connectivity, cycle access provisions, traffic calming measures, and road signage; and
- (b) on-site parking provisions, including layout and finishes to parking.

Reason: In the interest of traffic safety and orderly development

7. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development.

Reason: In the interests of visual and residential amenity.

8. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

9. The developer shall enter into water and wastewater connection agreements with Irish Water prior to the commencement of development.

Reason: In the interest of public health.

10. Public lighting shall be provided in accordance with a scheme, details of which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interests of amenity and public safety.

11. A plan containing details for the management of waste (and, in particular, recyclable materials) within the development, including the provision of facilities for the storage, separation and collection of the waste and recyclable materials shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, the waste shall be managed in accordance with the agreed plan.

Reason: To provide for the appropriate management of waste and, in particular recyclable materials, in the interest of protecting the environment.

12. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including hours of working, noise management measures and traffic management measures, inclusive of HGV delivery routes, construction parking, and storage areas.

Reason: In the interests of public safety and residential amenity.

13. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

14. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Board Member

Paul Hyde
