All the submissions on the file and the Inspector's report were considered at a meeting of the Board held on 22/07/22.

The Board decided to grant permission, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the provisions of the Fingal County Development Plan 2017-2023, the location of the site within the TC - Town and District Centre zoning, the nature and scale of the proposed development and the submissions on the file, it is considered that, subject to compliance with the conditions set out below, the proposed development would not have a negative impact on the residential or visual amenity of the area. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

In deciding not to accept the Inspector's recommendation to refuse permission, the Board had regard to the submissions received on foot of the section 132 notice which indicated that the proposed flue would be repositioned and fully supported within the subject property, and which provided details of the extraction method proposed, and considered that, subject to compliance with conditions, the proposed development would not have an unacceptable detrimental effect on the amenities of

adjoining properties, and would, therefore, be in accordance with the proper planning and sustainable development of the area.
