ABP-311873-21

The submissions on this file and the Inspector's report were considered at a Board meeting held on 17/01/2023.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the provisions of the Galway County Development Plan 2022-2028, to the prevailing pattern and character of existing development in the vicinity and to the nature and scale of the proposed development, it is considered that, subject to compliance with the conditions set out below, the development would not seriously injure the residential or visual amenities of the area or of property in the vicinity, would not be prejudicial to public health, would not give rise to flood risk, is acceptable in terms of pedestrian and traffic safety and would constitute an appropriate form of development at this location. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and retained in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to

comply with the following conditions. Where such conditions require details to be agreed with the Planning Authority, the developer shall agree such details in writing with the Planning Authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the detailed requirements of the planning authority for such works and services.

Reason: In the interest of public health.

3. Prior to commencement of development, the developer shall enter into water and waste water connection agreement(s) with Irish Water.

Reason: In the interest of public health.

4. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development.

Reason: In the interests of visual and residential amenity.

5. The external finishes of the new dwelling shall comprise slate/tile of blue/black colour for the roof and neutral coloured render for the external walls, unless otherwise agreed in writing with the Planning Authority prior to commencement of development.

Reason: In the interest of visual amenity.

6. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

7. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Board Member

Chris McGarry
