ABP-312095-21

The submissions on this file and the Inspector's report were considered at a Board meeting held on 14/03/2022.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the provisions of the section 254 of the Planning & Development Act, 2000 (as amended), the South Dublin County Development Plan 2016-2022, and the 'Telecommunications Antennae and Support Structures Guidelines for Planning Authorities (1996) (as updated by Circular Letters PL 07/12 and PL11/2020, respectively); it is considered that subject to compliance with the conditions set out below, the proposed development would not be visually intrusive or seriously injurious to the visual or residential amenity of the area, or of properties in the vicinity, and would be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application as amended by the further plans and particulars submitted on the 30th April 2020 except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The license shall be valid for three years from the date of this order. The telecommunications structure and related ancillary structures including any access arrangements shall then be removed and the site lands shall be reinstated on removal of the telecommunications structure and ancillary structures unless, prior to the end of the period, planning permission shall have been granted for their retention for a further period.

Reason: To enable the impact of the development to be re-assessed, having regard to changes in technology and design during the specified period.

3. Provision shall be made for a lamp standard to be accommodated on the proposed monopole structure, and the existing adjacent lamp standard which is located to the east of the proposed development shall be removed, to the satisfaction of the Planning Authority. Details of this shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of the visual amenities of the area.

● Details of the proposed colour scheme for the telecommunications structure, ancillary structures and fencing shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of the visual amenities of the area.

5. A low intensity fixed red obstacle light shall be fitted as close to the top of the mast as practicable and shall be visible from all angles in azimuth. Details of this light, its location and period of operation shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of public safety.

6. Landscaping of the site shall be carried out in accordance with a landscaping scheme which shall be submitted to and agreed in writing with planning authority prior to the commencement of development.

Reason: In the interest of the visual amenities of the area.

7. No advertisement or advertisement structure shall be erected or displayed on the proposed structure or within the curtilage of the site without a prior grant of planning permission.

Reason: In the interest of the visual amenities of the area

Board Member

Paul Hyde
