ABP-312515-22

The submissions on this file and the Inspector's report were considered at a Board meeting held on 09/06/2023.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the nature, design and scale of the proposed development in an urban setting, the site's residential land use zoning and other objectives contained in the Dublin City Development Plan 2022-2028, including Policy QHSN6 (Urban Consolidation) and Section 15.5.2 (Infill Development), it is considered that, subject to compliance with the conditions set out below, the development would not seriously injure the visual amenities or residential amenities of the area or of property in the vicinity in terms of overlooking, overbearing or overshadowing impacts and would be satisfactory in the context of traffic safety and convenience and would not represent a risk of flooding on either the proposed development site itself or on other lands and as such would not be prejudicial to public health. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1.	<p>The development shall be carried out and completed in accordance with the plans and particulars lodged with the application as amended by the further plans and particulars submitted on 16th November 2021 to the Local Authority and by the further plans and particulars received by An Bord Pleanála on 18th January 2022, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.</p> <p>Reason: In the interest of clarity.</p>
2.	<p>Prior to the commencement of development, details of the materials, colours and textures of all external finishes, shall be submitted to and agreed in writing by the Planning Authority.</p> <p>Reason: In the interests of orderly development and the visual amenities of the area.</p>
3.	<p>Prior to the commencement of development, details of the drainage arrangements, including culvert protection measures, shall be submitted to and agreed in writing by the Planning Authority.</p> <p>Reason: In the interest of public health.</p>
4.	<p>The applicant or developer shall enter into water and/or wastewater connection agreement(s) with Irish Water prior to the commencement of this development.</p> <p>Reason: In the interest of orderly development</p>

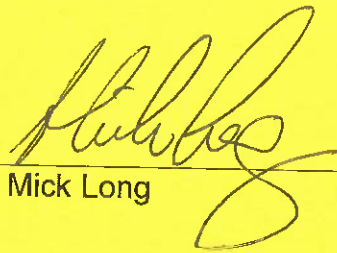

5.	<p>The Applicant shall submit details of the site's landscape and boundary treatment for written agreement with the Local Authority prior to the commencement of the development.</p> <p>Reason: In the interest of residential amenity.</p>
6.	<p>The developer shall facilitate the archaeological appraisal of the site and shall provide for the preservation, recording and protection of archaeological materials or features which may exist within the site. In this regard, the developer shall:</p> <p>(a) notify the planning authority in writing at least four weeks prior to the commencement of any site operation (including hydrological and geotechnical investigations) relating to the proposed development, and</p> <p>(b) employ a suitably-qualified archaeologist prior to the commencement of development. The archaeologist shall assess the site and monitor all site development works. The assessment shall address the following issues: (i) the nature and location of archaeological material on the site, and (ii) the impact of the proposed development on such archaeological material.</p> <p>A report, containing the results of the assessment, shall be submitted to the planning authority and, arising from this assessment, the developer shall agree in writing with the planning authority details regarding any further archaeological requirements (including, if necessary, archaeological excavation) prior to commencement of construction works.</p> <p>In default of agreement on any of these requirements, the matter shall be referred to An Bord Pleanála for determination.</p> <p>Reason: In order to conserve the archaeological heritage of the area and to secure the preservation (in-situ or by record) and protection of any archaeological remains that may exist within the site.</p>

7.	<p>The naming and numbering of the dwellings shall be in accordance with a naming and numbering scheme submitted to, and agreed in writing, by the Planning Authority, prior to the occupation of the dwelling.</p> <p>Reason: In the interest of orderly street numbering.</p>
8.	<p>The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including hours of working, tree protection measures, noise management measures and off-site disposal of construction/demolition waste.</p> <p>Reason: In the interests of public safety and residential amenity.</p>
9.	<p>Site development and building works shall be carried out only between the hours of 0800 to 1800 Mondays to Fridays inclusive, 0800 to 1400 on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.</p> <p>Reason: In order to safeguard the residential amenities of property in the vicinity.</p>
10.	<p>The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation</p>

provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Board Member
