**ABP-312731-22**

The submissions on this file and the Inspector's report were considered at a Board meeting held on 19/05/2022.

The Board decided to grant permission and retention permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to the pattern of development characterising this area, to the design, built form and layout of the development sought under this application, and to the provisions of the Dublin City Development Plan 2016-2022, it is considered that, subject to compliance with the conditions set out below, the development proposed to be retained and for permission would not seriously injure amenities of nearby dwellings and would not seriously injure the visual amenities of the area. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

### **Conditions**

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application as amended by the further plans and particulars submitted on the 14<sup>th</sup> day of December 2021, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

**Reason:** In the interest of clarity.

2. The development hereby approved shall incorporate the following amendments:
  - (a) The proposed extension to the front shall have a maximum depth of 1.5m from the primary front building line of the dwelling.
  - (b) The proposed boundary wall to the south-west shall have a maximum height of 2m and shall not extend forwards of the primary front building line of the dwelling.

**Reason:** In the interests of orderly development and visual amenity.

3. The entire premises shall be used as a single dwelling unit and shall not be subdivided in any manner or used as two or more separate habitable units.

**Reason:** To prevent unauthorised development.

4. The domestic outbuilding shall be solely for purposes incidental to the enjoyment of the dwelling house and shall not be used for other type of residential use, industrial, business and/or commercial purposes.

**Reason:** In the interest of residential amenity and in the interest of the proper planning and sustainable development of the area.

5. The external finishes of the proposed extension and samples of the proposed materials shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

**Reason:** In the interest of visual amenity.

6. Water supply and drainage arrangements, including the disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

**Reason:** In the interest of public health.

7. The following requirements of the Planning Authority's Transportation Planning Division of Dublin City Council shall be complied with:
  - (a) Driveway entrance shall not exceed 3.0m in width and shall not have outward opening gates.
  - (b) Footpath and kerb to be dished and entrance provided to the requirements of the Area Engineer, Roads Maintenance Division.
  - (c) All costs incurred by Dublin City Council including any repairs to the public road and services necessary as a result of the development, shall be at the expense of the developer.
  - (d) The developer shall be obliged to comply with the requirements set out in the Code of Practice.

**Reason:** To ensure a satisfactory standard of development.

8. Site development and building works shall be carried out only between the hours of 0800 to 1800 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

**Reason:** In order to safeguard the residential amenities of property in the vicinity.

9. The construction of the development shall be managed in accordance with a Construction and Demolition Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice

for the development, including hours of working, noise management measures and off-site disposal of construction/demolition waste.

**Reason:** In the interests of public safety and residential amenity.

10. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

**Reason:** It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Advisory Note: Section 34(13) of the Planning and Development Act, 2000 as amended, indicates that: "a person shall not be entitled solely by reason of a permission or approval under this section to carry out a development".
