Board Direction
BD-011409-22
ABP-313653-22

At a meeting held on 28/10/2022, the Board considered the report of the Inspector, and the documents and submissions on file generally in respect of the proposed development, comprising a 220kV GIS substation on lands in the townlands of Creemore and Belshamstown, County Meath, including the provision of underground 220kV transmission cables towards the existing Woodland 400kV substation.

The Board decided that the proposed development, as described in the documents received by the Board on the 25th day of May 2022, and augmented by the updated layout received by the Board on the 28th day of September 2022, falls within the scope of Section 182A of the Planning and Development Act 2000, as amended, and that a planning application should be made directly to the Board.

Board Member:

Dave Walsh
