The submissions on this file and the Inspector's report were considered at a Board meeting held on 28/06/2023.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to the zoning objective of the area, the design, layout and scale of the proposed development and the pattern of development in the area, it is considered that, subject to compliance with conditions below, the proposed development would not seriously injure the visual amenities of the area or residential amenity of property in the vicinity.

In deciding not to accept the inspector's recommendation to reduce the height of the single-story portion of the proposed extension, the Board considered that the design as proposed would not be overbearing and would not seriously injure the residential amenity of nearby properties. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.
