At a meeting held on 25/08/2022, the Board considered the report of the Inspector, and the documents and submissions on file generally, in relation to the proposed development, consisting of the upgrading of the existing Woodland 400kV/200kV electrical substation, in the townland of Woodland, Batterstown, County Meath.

The Board decided that the proposed development, as set out in the plans and particulars received by An Bord Pleanála on the 19<sup>th</sup> day of July 2022, does not fall within the scope of section 182A of the Planning and Development Act 2000, as amended, and that a planning application should be made in the first instance to the relevant planning authority.
