ABP-314353-22**

The submissions on this file and the Inspector's report were considered at a Board meeting held on 29/11/2023.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to the 'Z4 – Key Urban Villages / Urban Villages' zoning objective pertaining to the site under the Dublin City Development Plan 2022-2028, national/local policy objectives which support the redevelopment of brownfield/infill sites, the subject site's proximity to public transport, the design/layout/scale of the proposed development and the existing pattern of development in the vicinity, it is considered that subject to compliance with conditions below, the proposed development would be acceptable in terms of design, height, layout and scale of development in this accessible urban location, would not adversely affect the visual amenity/architectural heritage of the area or seriously injure the residential amenities of properties in the vicinity and would comply with the provisions of the Dublin City Development Plan 2022-2028. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

### **Appropriate Assessment Screening**

The Board completed an Appropriate Assessment Screening exercise in relation to the potential effects of the proposed development on European Sites, taking into account the nature, scale and location of the proposed development, and the Inspector's report and submissions on file. In completing the screening exercise, the Board adopted the report of the Inspector and concluded that, by itself or in combination with other development in the vicinity, the proposed development would not be likely to have a significant effect on any European Site in view of the sites' conservation objectives, and that a Stage 2 Appropriate Assessment (and submission of a Natura impact statement) is not, therefore, required.
