The submissions on this file and the Inspector's report were considered at a Board meeting held on 17/01/2023.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the provisions of section 254 of the Planning and Development Act 2000, as amended, to national, regional and local policy objectives, as represented in the Dublin City Development Plan 2022-2028, to support the development of a sustainable telecommunications network throughout the city, to the Department of Environment, Heritage and Local Government section 28 Statutory Guidelines, "Telecommunications Antennae and Support Structures: Guidelines for Planning Authorities, 1993, as updated by circular letter PL 07/12 in 2012, and to the nature and scale of the development, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential or visual amenities of the area or of property in the vicinity, would be acceptable in terms of traffic and pedestrian safety. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with

the plans and particulars lodged with the licence application, except as may otherwise be required in order to comply with the following conditions.

Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. This licence shall be valid for five years from the date of this Order. The telecommunications structure and related ancillary structures shall then be removed and the lands reinstated on removal of the telecommunications structure and ancillary structures unless, prior to the end of the period, continuance shall have been granted for their retention for a further period.

Reason: To enable the impact of the development to be re-assessed, having regard to changes in technology and design during the specified period.

3. Details of the proposed colour scheme for the telecommunications structure and ancillary structures shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of the visual amenities of the area.

4. No additional dishes, antennae or other equipment, other than indicated on Drg. No. SR_1449-103A Rev. A, received by the planning authority with the application, shall be attached to the pole or otherwise erected on the site, without first obtaining the written consent of the planning authority.

Reason: In the interest of visual amenity.

5. No advertisement or advertisement structure shall be erected or displayed on the proposed structure or within the curtilage of the site.

Reason: In the interest of the visual amenities of the area.
