**ABP-315055-22**

The submissions on this file and the Inspector's report were considered at a Board meeting held on 03/11/2023.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

#### **Reasons and Considerations**

Having regard to the provisions of Wicklow County Development Plan 2022-2028 (as varied) and the Bray Municipal District Local Area Plan 2018-2024, the location of the proposed development within the settlement boundary of Bray on zoned 'Existing Residential' lands, the relatively small scale nature of the proposal in the context of the appeal site and overall protected structure and the prevailing pattern and character of development in the area, it is considered that, subject to compliance with the conditions set out below, the proposed development would not materially or adversely affect the protected structure, would not seriously injure the amenities of the area or of property in the vicinity and would not negatively impact on the natural heritage of the area. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

## Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

**Reason:** In the interest of clarity

2. Prior to commencement of development, the developer shall provide for the following:
  - (a) The appointment of a conservation expert, who shall manage, monitor and implement works on the site and ensure adequate protection of the historic fabric during those works.
  - (b) The submission of details of all finishes and of all existing original features to be retained and reused where possible, including interior and exterior fittings/features, joinery, fenestration, plasterwork, features (cornices and ceiling mouldings), roofs, staircases including balusters, handrail and skirting boards.

All repair/restoration works shall be carried out in accordance with best conservation practice as detailed in the application and the "Architectural Heritage Protection Guidelines for Planning Authorities" (Department of Arts, Heritage and the Gaeltacht, 2011). The repair/restoration works shall retain the maximum amount possible of surviving historic fabric *in-situ* including structural elements, plasterwork and joinery and shall be designed to cause minimum interference to the building structure and/or fabric.

**Reason:** To ensure that the integrity of the historic structures is maintained and that the structures are protected from unnecessary damage or loss of fabric.

3. The 2 no proposed roof lights on the rear elevation and identified as No 3 in plans submitted shall be obscure glass. Details shall be agreed in writing with the Planning Authority prior to commencement of work on site.

**Reason:** In the interest of residential amenity

4. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

**Reason:** In the interest of public health.

5. Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

**Reason:** In order to safeguard the residential amenities of property in the vicinity.
