ABP-315344-22

The submissions on this file and the Inspector's report were considered at a Board meeting held on 19/12/2023.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to: the existing site layout and building envelop of the dwelling on site relative to the configuration of the adjoining properties; the configuration of the subject site fronting two residential roads, and the proximity of the immediate dwelling to the north of the site with its front door located on the gable end elevation facing directly into the subject site, the Board considered that, subject to conditions, the proposed extension to the dwelling would not adversely impact on the visual amenities of the area nor adversely impact on the residential amenities of adjoining properties. The proposed development is in keeping with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars received by the planning authority on the 2nd day of November 2022, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The covered entrance to garage/pitched roof proposed over the carport area, as indicated in the plans and elevations received by the planning authority on the 2nd day of November 2022, shall not be permitted (a pitched roof over the enclosed garage is permitted). Prior to the commencement of development, the applicant shall submit to, and agree in writing with, the planning authority, amended plans and elevations at a scale of not less than 1:100 indicating compliance with this condition.

Reason: To mitigate the overbearing impact of this element of the proposed development on the adjoining residential property to the north-east.

3. Water supply and drainage arrangements including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health and surface water management.

4. Details of the materials, colours and textures of all the external finishes to the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity

5. Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0900 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the amenities of property in the vicinity.

6. That all necessary measures be taken by the contractor to prevent the spillage or deposit of clay, rubble, or other debris on adjoining roads during the course of the works.

Reason: To protect the amenities of the area.

7. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the

Development Contribution Scheme made under section 48 of the Act be applied to the permission.
