ABP-315896-23

The submissions on this file and the Inspector's report were considered at a Board meeting held on 21/06/2023.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the provisions of the Fingal County Development Plan 2023-2029, the pattern of development in the area, the infill nature of the application site and the nature and scale of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities of the area, would not be prejudicial to public health and would not result in a traffic hazard and would, therefore, be in accordance with the proper planning and sustainable development of the area.

The Board agreed with the Inspector that the proposal would not materially contravene the County Development Plan.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application and by the further plans and

particulars received by An Bord Pleanála on the 22nd day of February 2023, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The roof profile shall be in accordance with the details submitted to the Planning Authority on the 25th of November 2022.

Details of the materials, colours and textures of all the external finishes to the proposed houses shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

3. The site entrance, access driveway and roadside boundary treatment serving the proposed development including the provision of a footpath, cycle lane dishing and kerbs within the side boundary shall comply with the detailed requirements of the planning authority for such works. Proposals shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of amenity and of traffic and pedestrian safety.

4. All public service cables for the development, including electrical and telecommunications cables, shall be located underground throughout the site.
Reason: In the interest of visual amenity.

5. Prior to commencement of development, the developer shall enter into water and wastewater connection agreement(s) with Uisce Éireann.

Reason: In the interest of public health.

6. The disposal of surface water shall comply with the requirements of the planning authority for such works.

Reason: To prevent pollution.

7. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the Planning Authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

8. Construction and demolition waste shall be managed in accordance with a construction waste and demolition management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall be prepared in accordance with the "Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects", published by the Department of the Environment, Heritage and Local Government in July 2006.

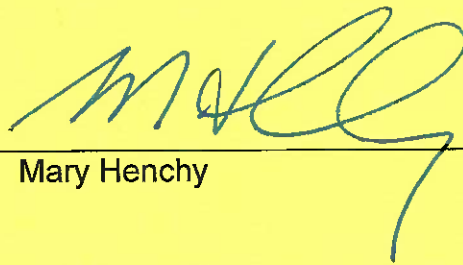

Reason: In the interest of sustainable waste management.

9. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to the commencement of development or in such phased payments as the

planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
