ABP-316532-23

The submissions on this file and the Inspector's report were considered at a Board meeting held on 11/03/2024.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the location of the proposed development, together with its design, scale, bulk and massing, it is considered that the proposed development would not seriously injure the visual or residential amenities of the area, would not constitute traffic hazard by virtue of its access and would not set an undesirable precedent for other residential development in the vicinity. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

- The development shall be carried out and completed in accordance with
1. the plans and particulars lodged with the application as amended by the further plans and particulars submitted on the 7th day of March 2023, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in

writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

- Site development and building works shall be carried out only between
2. the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

- Details of the materials, colours and textures of all the external finishes
3. to the proposed dwellings shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

- Water supply and drainage arrangements, including the attenuation and
4. disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

- Prior to commencement of development, the developer shall enter into a
5. water connection agreement with Irish Water.

Reason: In the interest of public health.

- The developer shall pay to the planning authority a financial contribution
6. in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be

agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Board Member

Stephen Bohan
