ABP-316998-23

The submissions on this file and the Inspector's report were considered at a Board meeting held on 01/09/2023.

The Board by a majority of two to one decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the Wicklow County Development Plan 2022-2028, the location of the site on lands zoned for residential development, the development permitted under An Bord Pleanála PL 27.248401, and the pattern of development in the area, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities of residential or other property in the area, would be in accordance with the provisions of the Development Plan, and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The proposed development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars received by An Bord Pleanála on the 10th day of May, 2023, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the

planning authority prior to commencement of development and the proposed development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. This order permits the development of four houses and associated works.

Reason: In the interest of clarity.

3. Before any development authorised by this permission takes place, Richview House shall be removed in such a manner as to enable its construction and detailing to be recorded and photographed. Details, including measured architectural drawings and coloured photographs, shall be recorded in accordance with the requirements of the planning authority. Details of procedures for its removal and recording shall be submitted to, and agreed in writing in advance with, the planning authority.

Reason: To ensure the preservation of an accurate record of an item of architectural heritage value.

4. Details of boundary treatments shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of residential and visual amenity.

5. The internal road network serving the proposed development, including turning bays, junctions, parking areas, footpaths and kerbs, shall comply with the detailed standards of the planning authority for such works and design standards as outlined in the Design Manual for Urban Roads and Streets (DMURS).

Reason: In the interest of amenity and of traffic and pedestrian safety.

6. Public lighting shall be provided in accordance with a scheme, which shall include lighting along pedestrian routes through open spaces, details of which

shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Such lighting shall be provided prior to the making available for occupation of any units.

Reason: In the interest of visual amenity and public safety.

7. The areas of public open space shown on the lodged plans shall be reserved for such use and shall be levelled, contoured, soiled, seeded, and landscaped in accordance with the detailed requirements of the planning authority.

Reason: In order to ensure the satisfactory development of the public open space areas, and their continued use for this purpose.

8. The proposed development shall be carried out in accordance with the plans and particulars and subject to conditions imposed in the grant of permission under An Bord Pleanála reference number PL 27.248401, except where amendments permitted under this permission apply.

Reason: In the interest of clarity.

9. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health and to ensure a proper standard of development.

10. The developer shall enter into water and/or wastewater connection agreements with Uisce Éireann prior to commencement of development.

Reason: In the interest of public health.

11. The developer shall facilitate the archaeological appraisal of the site and shall provide for the preservation, recording and protection of archaeological materials or features which may exist within the site. In this regard, the developer shall:

- (a) notify the planning authority in writing at least four weeks prior to the commencement of any site operations (including hydrological and geotechnical investigations) relating to the proposed development, and
- (b) employ a suitably qualified archaeologist prior to commencement of development. The archaeologist shall assess the site and monitor all site development works.

The assessment shall address the following issues:

- (i) the nature and location of archaeological material on the site, and
- (ii) the impact of the proposed development on such archaeological material.

A report, containing the results of the assessment, shall be submitted to the planning authority and, arising from this assessment, the developer shall agree in writing with the planning authority details regarding any further archaeological requirements (including, if necessary, archaeological excavation) prior to commencement of construction works. In default of agreement on any of these requirements, the matter shall be referred to An Bord Pleanála for determination.

Reason: In order to conserve the archaeological heritage of the area and to secure the preservation (in-situ or by record) and protection of any archaeological remains that may exist within the site.

12. The mitigation measures set out in the report "Bat fauna impact assessment for a proposed residential development at Bellevue Hill, Delgany, Greystones, Co. Wicklow" shall be implemented by the developer. A final implementation report shall be submitted to the planning authority within three months of completion of the measures.

Reason: To ensure the protection of the natural heritage on the site.

13. Prior to commencement of development, the developer shall prepare a Resource Waste Management Plan (RWMP) as set out in the EPA's Best

Practice Guidelines for the Preparation of Resource and Waste Management Plans for Construction and Demolition Projects (2021), including demonstration of proposals to adhere to best practice and protocols. The RWMP shall include specific proposals as to how the RWMP will be measured and monitored for effectiveness; these details shall be placed on file and retained as part of the public record. The RWMP shall be submitted to the planning authority for written agreement prior to commencement of development. All records (including for waste and all resources) pursuant to the agreed RWMP shall be made available for inspection at the site office at all times.

Reason: In the interest of sustainable waste management.

14. Prior to commencement of development, the applicant or other person with an interest in the land to which the application relates shall enter into an agreement in writing with the planning authority in relation to the provision of housing in accordance with the requirements of section 94(4) and section 96(2) and (3) (Part V) of the Planning and Development Act 2000, as amended, unless an exemption certificate shall have been applied for and been granted under section 97 of the Act, as amended. Where such an agreement is not reached within eight weeks from the date of this order, the matter in dispute (other than a matter to which section 96(7) applies) may be referred by the planning authority or any other prospective party to the agreement to An Bord Pleanála for determination.

Reason: To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan of the area.

15. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to the

commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to the Board to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
