The submissions on this file and the Inspector's report were considered at a Board meeting held on 06/09/2023.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the 'R2' zoning objective pertaining to the site it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential amenities of the area or of property in the vicinity, would be acceptable from a visual amenity perspective and would generally be acceptable in terms of compliance with the criteria stipulated under section 1.3.2, Volume 6 of the Kerry County Development Plan 2022 -2028. The proposed development will therefore be in accordance with the proper planning and sustainable development of the area.

Conditions

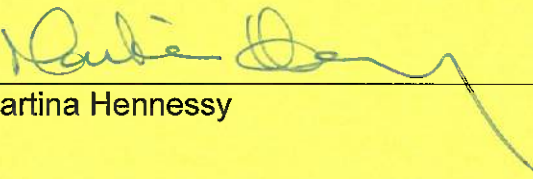

1.	<p>The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.</p> <p>Reason: In the interest of clarity.</p>
2.	<p>The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of all intended construction practice for the development, including measures for protection of existing development and boundary walls, construction traffic routing and management, construction parking, materials storage, site compound, noise management measures and off-site disposal of construction/demolition waste.</p> <p>Reason: In the interests of public safety and residential amenity.</p>
3.	<p>The party boundary walls to the rear of the site shall be 1.8m in height block walls, capped and dashed on both sides.</p> <p>Reason: In the interest of residential amenity.</p>
4.	<p>Site development and building works shall be carried out only between the hours of 0700 to 1800 Mondays to Fridays inclusive, between 0800 hours to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.</p>

	Reason: In order to safeguard the residential amenities of property in the vicinity.
5.	<p>Details of the materials, colours and textures of all the external finishes to the proposed development, shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.</p> <p>Reason: In the interest of visual amenity.</p>
6.	<p>Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.</p> <p>Reason: In the interest of public health.</p>
7.	<p>The developer shall enter into water supply and wastewater connection agreements with Irish Water, prior to commencement of development.</p> <p>Reason: In the interest of public health.</p>
8.	<p>Prior to the commencement of any works on site the applicant shall retain the services of a competent person(s) to carry out a review of the site to determine the presence of ACM (asbestos containing material) or any other hazardous materials within the structure to be demolished. A report on the presence of any such materials and the proposed management of same should be forwarded to the planning authority.</p> <p>Reason: in the interests of public health and to prevent pollution.</p>
9.	<p>The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the</p>

planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
