ABP-317643-23

The submissions on this file and the Inspector's report were considered at a Board meeting held on 26/02/2024.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the site's residential zoning under the Dublin City Development Plan 2022-2028, Policy BHA14 promoting the regeneration and redevelopment of mews lanes, and the standards for the development of mews houses set out in section 15.13.5 of the development plan, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the character of the area or the amenities of property in the vicinity and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The proposed development shall be carried out in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars received by the planning authority on the 13th day of June, 2023, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the

planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the proposed development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The height of the proposed new two-storey house shall be reduced to no more than 5.8 meters high.

Reason: In the interest of visual and residential amenities.

3. Details of the materials, colours and textures of all the external finishes to the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

4. Notwithstanding the exempted development provisions of the Planning and Development Regulations, 2001, and any statutory provision replacing or amending them, no development falling within Class 1 or Class 3 of Schedule 2, Part 1 of those Regulations shall be erected on the site, without a prior grant of planning permission.

Reason: In the interest of the amenities of the area.

5. Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays, inclusive, between 0900 to 1400 hours on Saturdays and not at all on Sundays or public holidays. Deviation from these times shall only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the amenities of property in the vicinity.

6. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground.

Reason: In the interest of visual and residential amenity.

7. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health and surface water management.

8. Prior to commencement of development, the developer shall enter into water and/or wastewater connection agreement(s) with Uisce Éireann.

Reason: In the interest of public health.

9. The following requirements of the planning authority shall be complied with:

- a) Entrance doors / gates shall not be outward opening and no part of the development shall encroach or overhang the public domain.
- b) All costs incurred by Dublin City Council, including any repairs to the public road and services necessary as a result of development, shall be at the expense of the developer.

Reason: In the interest of public safety and to ensure a satisfactory standard of development.

10. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including traffic management, hours of working, noise management measures and off-site disposal of construction/demolition waste.

Reason: In the interests of public safety and residential amenity.

11. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Board Member

Mary Cregg
