ABP-318389-23

The submissions on this file and the Inspector's report were considered at a Board meeting held on 01/08/2024.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations:

Having regard to the relevant provisions of the Cork County Development Plan 20222028, to the existing pattern of development in the vicinity, to the planning history of the site and the extant permission for residential development at the site, and having regard to the design, scale and layout of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential amenities of property in the vicinity, would be acceptable in terms of visual amenity, would not be prejudicial to public health and would be acceptable in terms of traffic safety. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars submitted on 20th September 2023, except as may otherwise be required

in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. (a) Apart from any departures specifically authorised by this permission, the development shall be carried out and completed in accordance with the terms and conditions of the parent permission granted by the planning authority on 14th June 2022 under planning register reference number 22/4030, and any agreements entered into thereunder.

(b) This grant of permission shall expire on the expiry date of the parent permission under planning register reference number 22/4030.

Reason: In the interest of clarity and to ensure that the overall development is carried out in accordance with the previous permission.

3. All rear gardens of houses adjacent to common areas, shall be bounded with brick or concrete block walls, which shall be a minimum of 1.8 metres high (maximum two metres). All rear side boundaries between proposed units shall comprise of 1.8 metre high concrete post and timber panelled fences.

Reason: In the interest of residential amenity and to ensure the use of durable boundary treatment.

4. Site development and building works shall be carried out only between the hours of 0700 to 1800 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

5. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works.

Reason: To ensure adequate servicing of the development, and to prevent pollution

6. Prior to commencement of development, the developer shall enter into water and wastewater connection agreements with Uisce Éireann.

Reason: In the interest of public health.

7. Prior to the commencement of any unit in the development as permitted, the applicant or any person with an interest in the land shall enter into an agreement with the planning authority (such agreement must specify the number and location of each unit), pursuant to Section 47 of the Planning and Development Act 2000, as amended, that restricts all housing units permitted, to first occupation by individual purchasers i.e. those not being a corporate entity, and/or by those eligible for the occupation of social and/or affordable housing, including cost rental housing.

Reason: To restrict new housing development to use by persons of a particular class or description in order to ensure an adequate choice and supply of housing, including affordable housing, in the common good.

8. Prior to commencement of development, the applicant or other person with an interest in the land to which the application relates, shall enter into an agreement in writing with the planning authority in relation to the provision of housing in accordance with the requirements of section 94(4) and section 96(2) and (3) (Part V) of the Planning and Development Act 2000, as

amended, unless an exemption certificate shall have been applied for and been granted under section 97 of the Act, as amended. Where such an agreement is not reached within eight weeks from the date of this order, the matter in dispute (other than a matter to which section 96(7) applies) may be referred by the planning authority or any other prospective party to the agreement to An Bord Pleanála for determination.

Reason: To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan of the area.

9. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under Section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of the development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. The application of any indexation required by this condition shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under Section 48 of the Act be applied to the permission.

10. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security, to secure the provision and satisfactory completion and maintenance until taken in charge by the local authority of roads, footpaths,

watermains, drains, public open space and other services required in connection with the development, coupled with an agreement empowering the local authority to apply such security or part thereof to the satisfactory completion or maintenance of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion and maintenance of the development until taken in charge.
