ABP-318485-23

The submissions on this file and the Inspector's report were considered at a Board meeting held on 04/12/2024.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the pattern of development in the area and its existing residential zoning under the Limerick Development Plan 2022-2028, it is considered that, subject to compliance with conditions below, the proposed development would provide a high-quality residential development on an underutilised site; would not seriously injure the character of the area or the amenities of property in the vicinity and would provide an adequate standard of residential amenity to future occupiers. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

The Board did not consider it appropriate to allow access through the site to adjacent properties, in the interest of protecting the residential amenity of future occupiers of the proposed development.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further

plans and particulars received by the planning authority, on the 27th day of September 2023 as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Details of the materials, colours and textures of all the external finishes to the proposed buildings shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity and to ensure an appropriate high standard of development.

3. Prior to the commencement of any development works on the site, including the removal of any building, landscape feature or vegetation, a survey to ascertain the presence of any bat activity on the site for roosting or foraging purposes and an assessment of any potential impact on the species arising from the proposed development shall be undertaken by a suitably qualified ecologist and the findings submitted for written approval of the planning authority. Should the significant presence of bats be established on the site no development shall occur until the necessary permission/ derogation licence has been obtained from the appropriate statutory body.

Reason: In the interest of bat protection and to provide for the preservation and conservation of this species.

4. Proposals for an estate/street name, numbering scheme and associated signage shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, all estate and street signs, and dwelling numbers, shall be provided in accordance with the agreed scheme. The proposed name(s) shall be based on local historical or topographical features, or other alternatives acceptable to the planning authority. No advertisements/marketing signage relating to the name(s) of the development

shall be erected until the developer has obtained the planning authority's written agreement to the proposed name(s).

Reason: In the interest of urban legibility and to ensure the use of locally appropriate placenames for new residential areas.

5. Prior to the operation/occupation of the proposed development any noise mitigation measures (specified in Noise Impact Report) shall be constructed and completed in accordance with the proposed scheme.

Reason: In order to protect the residential amenities of property in the vicinity.

6. Prior to the commencement of development, the developer shall enter into a Connection Agreement(s) with Uisce Éireann (Irish Water) to provide for a service connection(s) to the public water supply and/or wastewater collection network.

Reason: In the interest of public health and to ensure adequate water/wastewater facilities.

7. The disposal of surface water shall comply with the requirements of the planning authority for such works and services. Prior to the commencement of development, the developer shall submit details for the disposal of surface water from the site for the written agreement of the planning authority.

Reason: In the interest of public health.

8. The internal road network serving the proposed development including turning bays, junctions, parking areas, footpaths, and kerbs shall comply with the detailed construction standards of the planning authority for such works and design standards outlined in Design Manual for Urban Roads and Streets (DMURS).

Reason: In the interest of amenity and of traffic and pedestrian safety.

9. The proposed development shall align with the proposed cycling and walking infrastructure on the adjoining public road. Prior to the commencement of development, the developer shall submit a Site Layout Plan showing how the

development integrates with the adjoining approved Part 8 scheme (22/8014) and that it will not impact on the proposed pedestrian crossing.

Reason: In the interest of amenity and of traffic and pedestrian safety.

10. Prior to the commencement of any development on site the applicant shall submit the following for the written agreement of the Planning Authority

- i) The Stage 1 and Stage 2 Road Safety Audit shall be signed by the design team or the employer and include the feedback audit form. The Stage 2 Road Safety Audit shall be in compliance with the TII Publication 'Road Safety Audit GE-STY-01024'. The recommendations of the Stage 1 & Stage 2 Road Safety Audit shall be implemented in full.
- ii) A Stage 3 Road Safety Audit in compliance with the TII Publication 'Road Safety Audit GE-STY-01024' shall be submitted on upon the completion of construction and prior to the opening to traffic.

Reason: In the interests of traffic and pedestrian safety.

11. Site development and building works shall be carried out only between the hours of 0800 to 2000 Mondays to Friday inclusive, between 0800 to 1600 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

12. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including:

- a) Location of the site and materials compound(s) including area(s) identified for the storage of construction refuse;
- b) Location of areas for construction site offices and staff facilities;
- c) Details of site security fencing and hoardings;
- d) Details of on-site car parking facilities for site workers during the course of construction;
- e) Details of the timing and routing of construction traffic to and from the construction site and associated directional signage, to include proposals to facilitate the delivery of abnormal loads to the site;
- f) Measures to obviate queuing of construction traffic on the adjoining road network;
- g) Measures to prevent the spillage or deposit of clay, rubble or other debris on the public road network;
- h) Alternative arrangements to be put in place for pedestrians and vehicles in the case of the closure of any public road or footpath during the course of site development works;
- i) Provision of parking/access for existing adjoining properties during the construction period;
- j) Details of appropriate mitigation measures for noise, dust and vibration, and monitoring of such levels;
- k) Containment of all construction-related fuel and oil within specially constructed bunds to ensure that fuel spillages are fully contained. Such bunds shall be roofed to exclude rainwater;
- l) Off-site disposal of construction/demolition waste and details of how it is proposed to manage excavated soil;
- m) Means to ensure that surface water run-off is controlled such that no silt or other pollutants enter local surface water sewers or drains.
- n) A record of daily checks that the works are being undertaken in accordance with the Construction Management Plan shall be available for inspection by the planning authority;

Reason: In the interest of amenities, public health and safety and environmental protection

13. Prior to commencement of development, a Resource Waste Management Plan (RWMP) as set out in the EPA's Best Practice Guidelines for the Preparation of Resource and Waste Management Plans for Construction and Demolition Projects (2021) shall be prepared and submitted to the planning authority for written agreement. The RWMP shall include specific proposals as to how the RWMP will be measured and monitored for effectiveness. All records (including for waste and all resources) pursuant to the agreed RWMP shall be made available for inspection at the site office at all times.

Reason: In the interest of reducing waste and encouraging recycling.

14. A minimum of 42 no. safe and secure bicycle parking spaces shall be provided within the site. Provision should be made for a mix of bicycle types including cargo bicycles and individual lockers. Details of the layout and marking demarcation of these spaces shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: To ensure that adequate bicycle parking provision is available to serve the proposed development, in the interest of sustainable transportation.

15.

- a) Walls shall be provided along the rear and side boundaries of the site along the red line indicated on the Site Survey drawing received by the planning authority on 27th September 2024. Such walls shall be two metres in height above ground level.

These walls shall be constructed in brick to match the brick used in the buildings or concrete block or similar durable materials and, if in concrete block, shall be suitably capped and rendered on both sides in a finish that matches the external finish of the buildings. Where there is a difference in ground levels between this site and adjoining properties, the level shall be taken as their average level.

- b) Details of the walls forward of the established building line fronting Sexton Street North (i.e. forward of house no.5) shall be submitted to and agreed in writing with the planning authority.
- c) For the avoidance of doubt this permission does not include the 'possible future access' to the rear of adjacent properties to the east as

indicated on Site layout Plan drawing No. P-02 Rev A., received by the planning authority on 27th September 2024. Any such access arrangements shall be subject to a future planning application.

Reason: In the interest of residential and visual amenity and to protect residential amenity of future occupants and in the interest of clarity.

16. Public lighting shall be provided in accordance with a scheme which shall be submitted to and agreed in writing with the planning authority prior to the commencement of development. The scheme shall include lighting along pedestrian routes through open spaces. Such lighting shall be provided prior to the making available for occupation of any residential unit.

Reason: In the interest of amenity and public safety.

17. The management and maintenance of the proposed development following its completion shall be the responsibility of a legally constituted management company. A management scheme providing adequate measures for the future maintenance of public open spaces, roads and communal areas shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: To provide for the satisfactory future maintenance of this development in the interest of residential amenity.

18.

- a) A plan containing details for the management of waste (and, in particular, recyclable materials) within the development, including the provision of facilities for the storage, separation and collection of the waste and, in particular, recyclable materials and for the ongoing operation of these facilities for each apartment unit shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, the waste shall be managed in accordance with the agreed plan.
- b) This plan shall provide for screened communal bin stores, the locations and designs of which shall be included in the details to be submitted.

Reason: To provide for the appropriate management of waste and, in particular recyclable materials, in the interest of protecting the environment.

19. Prior to commencement of development, the applicant or other person with an interest in the land to which the application relates shall enter into an agreement in writing with the planning authority [in relation to the transfer of a percentage of the land, to be agreed with the planning authority, in accordance with the requirements of section 94(4) and section 96(2) and 96(3)(a), (Part V) of the Planning and Development Act 2000, as amended, and/or the provision of housing on lands in accordance with the requirements of section 94(4) and section 96(2) and 96(3) (b), (Part V) of the Planning and Development Act 2000, as amended], unless an exemption certificate has been granted under section 97 of the Act, as amended. Where such an agreement cannot be reached between the parties, the matter in dispute (other than a matter to which section 96(7) applies) shall be referred by the planning authority or any other prospective party to the agreement, to An Bord Pleanála for determination.

Reason: To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan for the area.

20. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the provision and satisfactory completion and maintenance until taken in charge by the local authority of roads, footpaths, watermains, drains, public open space and other services required in connection with the development, coupled with an agreement empowering the local authority to apply such security or part thereof to the satisfactory completion or maintenance of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion and maintenance of the development until taken in charge.

21. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Board Member
