The submissions on this file and the Inspector's report were considered at a Board meeting held on 30/01/2025.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the established equine use at this site, which is considered to be ancillary to the main residential dwelling, the scale and location of the proposed development and the development proposed to be retained, the established surrounding pattern of development, and the policies of the Louth Development Plan, 2021 – 2027, it is considered that subject to the conditions set out below the development to be retained and proposed, would not contravene the existing residential zoning objective for the area, would not seriously injure the amenities of adjacent residential property, would not be prejudicial to public and environmental health, and would be acceptable in terms of traffic safety and convenience. The development to be retained and proposed would, therefore, be in accordance with the proper planning and sustainable development of the area.
