ABP-319054-24

The submissions on this file and the Inspector's report were considered at a Board meeting held on 19/09/2024.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the provisions of the Kerry County Development Plan 2022- 2028 and the Corca Dhuibhne Electoral Area Local Area Plan 2020-2026, and in particular the M1 – Mixed Use, General Development, Opportunity Site Zoning Objective and provisions of Objective number D-RES-1 which seeks to facilitate the development of residential units on vacant, derelict and infill sites and having regard to the pattern of existing development in the area and the design, scale and layout of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential or visual amenities of the area and would be acceptable in terms of pedestrian and traffic safety. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further

plans and particulars received by the planning authority on the 14th day of December 2023, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Prior to the commencement of development, the developer shall enter into water and/or wastewater agreement(s) with Uisce Éireann.

Reason: In the interest of public health.

3. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

4.
 - (a) The design and layout of parking areas, footpaths and kerbs, shall comply with the requirements of the planning authority and in all respects with the standards set out in the Design Manual for Urban Roads and Streets (DMURS).
 - (b) All the recommendations of the Stage 1/2 Road Safety Audit for the development shall be implemented.

Reason: In the interest of pedestrian, cyclist and traffic safety.

5. Details of the materials, colours and textures of all the external finishes to the proposed dwellings shall be submitted to, and agreed in writing with, the

planning authority prior to commencement of development. Roof colour shall be blue-black, black, dark brown or dark grey in colour only.

Reason: In the interest of visual amenity and to ensure an appropriate high standard of development.

6. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. All existing ground cables shall be relocated underground as part of the site development works.

Reason: In the interest of visual and residential amenity.

7. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

8. Prior to commencement of works, the developer shall submit to, and agree in writing with the planning authority, a Construction Management Plan, which shall be adhered to during construction. This plan shall provide details of intended construction practice for the development, including noise and dust management measures and off-site disposal of construction/demolition waste.

Reason: In the interests of public safety and amenity.

9. Proposals for an estate/street name, house numbering scheme and associated signage shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, all estate and street signs, and house numbers, shall be provided in accordance with the agreed scheme.

The proposed name shall be based on local historical or topographical features, or other alternatives acceptable to the planning authority. No advertisements/marketing signage relating to the name of the development shall be erected until the developer has obtained the planning authority's written agreement to the proposed name.

Reason: In the interest of urban legibility and to ensure the use of locally appropriate placenames for new residential areas.

10. Public lighting shall be provided in accordance with a scheme, details of which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Such lighting shall be provided prior to the making available for occupation of any unit.

Reason: In the interests of amenity and public safety.

11. The landscaping scheme, as submitted to An Bord Pleanála on the 13th day of March, 2024 shall be carried out within the first planting season following substantial completion of external construction works.

All planting shall be adequately protected from damage until established. Any plants which die, are removed or become seriously damaged or diseased, within a period of five years from the completion of the development or until the development is taken in charge by the local authority, whichever is the sooner, shall be replaced within the next planting season with others of similar size and species, unless otherwise agreed in writing with the planning authority.

Reason: In the interest of residential and visual amenity.

12. The boundary treatment shown on drawing number 2201_214, as submitted to the planning authority on the 14th day of December, 2023 shall be constructed unless otherwise revised and agreed in writing by the planning authority. Boundary walls (apart from those indicated to be finished in native stone) shall be plastered and capped.

Reason: In the interest of residential and visual amenity.

13. (a) A minimum of 66% of the residential units hereby permitted shall be restricted to use by those who can demonstrate the ability to preserve and protect the language and culture of the Gaeltacht, for a period of 15 years.
- (b) Prior to occupation of the development, the developer shall enter into a Section 47 agreement with the planning authority, to restrict the sale of units of the agreed portion of the residential elements of the development hereby permitted for the use of occupants who have an appropriate competence/fluency in Irish, except where after not less than two years from the date of completion of each specified housing unit, it is demonstrated to the written satisfaction of the planning authority that it has not been possible to transact each specified housing unit for use by occupants with the required competence/fluency in Irish.
- (c) The determination of the planning authority as required in (b) shall be subject to receipt by the planning authority of satisfactory documentary evidence from the developer regarding the sales and marketing of the specified housing units, in which case the planning authority shall confirm in writing to the developer or any person with an interest in the land, that the Section 47 agreement has been terminated and that the requirement of this planning condition has been discharged in respect of each specified housing unit.

The appropriate competence/fluency in Irish required to demonstrate compliance with this occupancy clause shall be akin to that required to at a minimum pass level B2 Meánleibhéal 2 in the Teastas Eorpach na Gaeilge examinations and a future occupier of each residential unit subject of this occupancy clause shall provide proof to the developer and planning authority, by way of a compliance submission, that a nominated adult residing in the

respective household has completed such an examination, or similar level of examination in the Irish language, within a reasonable timeframe of purchasing/occupying the respective residential unit.

This condition shall not affect the sale of the dwelling by a mortgagee in possession or the occupation of the dwelling by any person deriving title from such a sale.

Reason: To ensure that the proposed housing units are used to meet the state relevant development plan policy or applicant's stated housing needs and that development in this area is appropriately restricted to meeting essential local need to preserve and protect the language and culture of the Gaeltacht in the interest of the proper planning and sustainable development of the area.

14. (a) Prior to the commencement of the development as permitted, the applicant or any person with an interest in the land shall enter into an agreement with the planning authority (such agreement must specify the number and location of each house or duplex unit), pursuant to Section 47 of the Planning and Development Act 2000, that restricts all residential units permitted, to first occupation by individual purchasers i.e. those not being a corporate entity, and/or by those eligible for the occupation of social and/or affordable housing, including cost rental housing.
- (b) An agreement pursuant to Section 47 shall be applicable for the period of duration of the planning permission, except where after not less than two years from the date of completion of each specified housing unit, it is demonstrated to the satisfaction of the planning authority that it has not been possible to transact each of the residential units for use by individual purchasers and/or to those eligible for the occupation of social and/or affordable housing, including cost rental housing.
- (c) The determination of the planning authority as required in (b) shall be subject to receipt by the planning and housing authority of satisfactory documentary evidence from the applicant or any person with an interest in

the land regarding the sales and marketing of the specified housing units, in which case the planning authority shall confirm in writing to the applicant or any person with an interest in the land that the Section 47 agreement has been terminated and that the requirement of this planning condition has been discharged in respect of each specified housing unit.

Reason: To restrict new housing development to use by persons of a particular class or description in order to ensure an adequate choice and supply of housing, including affordable housing, in the common good.

15. Prior to commencement of development, the applicant or other person with an interest in the land to which the application relates shall enter into an agreement in writing with the planning authority in relation to the transfer of the land in accordance with the requirements of section 94(4) and section 96(2) and 96(3)(a), (Part V) of the Planning and Development Act 2000, as amended, and/or the provision of housing on the land in accordance with the requirements of section 94(4) and section 96(2) and 96(3) (b), (Part V) of the Planning and Development Act 2000, as amended, unless an exemption certificate has been granted under section 97 of the Act, as amended. Where such an agreement cannot be reached between the parties, the matter in dispute (other than a matter to which section 96(7) applies) shall be referred by the planning authority or any other prospective party to the agreement, to An Bord Pleanála for determination.

Reason: To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan for the area.

16. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the provision and satisfactory completion and maintenance until taken in charge by the local authority of roads, footpaths, watermains, drains, public open space and other services required in connection with the

development, coupled with an agreement empowering the local authority to apply such security or part thereof to the satisfactory completion or maintenance of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion and maintenance of the development until taken in charge.

17. The developer shall pay to the planning authority a financial contribution in respect of a shortfall in car parking in accordance with the provisions of the Kerry County Council Development Contribution Scheme 2017, specifically Table 1 which refers to Dingle benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

18. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on

behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
