ABP-319405-24

The submissions on this file and the Inspector's report were considered at a Board meeting held on 29/08/2024.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the provisions of the Dublin City Development Plan 2022-2028 and the layout, location, nature, and scale of the proposed extension, it is considered that the proposed development, subject to compliance with the conditions set out below, would not seriously injure the residential or visual amenities of the area or of property in the vicinity and would comply with the provisions of the development plan. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the

developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health and surface water management.

3. The development shall comply with the transportation requirements of the Planning Authority with regard to vehicle entrance widths, inward opening gates, dishing of kerbs/footpaths, and retention of street trees, and compliance with the Code of Practice.

Reason: In the interests of pedestrian and traffic safety.

4. Site development and building works shall be carried only out between the hours of 0700 to 1800 Mondays to Fridays inclusive, between 0800 hours to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

5. The construction of the proposed development shall be managed in accordance with a Construction Management Plan, which shall be submitted

to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of all intended construction practice for the proposed development, including noise management measures and off-site disposal of construction/demolition waste.

Reason: In the interest of public safety and residential amenity.

6. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to the Board to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000 that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Note: The Board noted the Inspectors concerns regarding the gable roof, the Board concurred with the Planning Authority that having regard to the location of the house on the street that the use of a gable roof rather than a hip would not be incongruous at this location.

Board Member

Mary Henchy
