The submissions on this file and the Inspector's report were considered at a Board meeting held on 25/09/2024.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to the residential zoning which applies to the site under the Meath County Development Plan 2021 – 2027 (as varied by Variation no. 1 and 2 – adopted on the 13th of May 2024), under which residential development is stated to be generally acceptable in principle, subject to compliance with the conditions set out below, it is considered that the proposed development would be an appropriate form of infill development in terms of scale, form and layout, would not seriously injure the residential and visual amenities of the adjoining properties by reasons of scale and design, overshadowing, overlooking or overbearing and would be acceptable in terms of parking provision, traffic movements and pedestrian safety. The proposed development would be in accordance with relevant policies and objectives in the development plan and would, therefore, be in accordance with the proper planning and sustainable development of the area.
