The submissions on this file and the Inspector's report were considered at a meeting held on 16/09/2025.

The Commission decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Planning

Commissioner:

Mick Long

Date: 16/09/2025

DRAFT WORDING FOR ORDER

Reasons and Considerations

In coming to its decision, the Commission performed its functions in relation to the making of its decision, in a manner consistent with Section 15(1) of the Climate Action and Low Carbon Act 2015, as amended by Section 17 of the Climate Action and Low Carbon Development (Amendment) Act 2021, in accordance with the provisions of the Climate Action Plan 2024 and Climate Action Plan 2025.

It is considered that, subject to compliance with the conditions set out below, the proposed development would be generally acceptable in having regard to the zoning

objective which applies to the site, would not seriously injure the residential or visual amenities of property in the vicinity, would not cause adverse impacts on or result in serious pollution to biodiversity, lands, water, or air, and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The proposed development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars received by the planning authority on the 1st day of May, 2024, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the proposed development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The mitigation measures contained in the submitted Environmental Report shall be implemented in full.

Reason: To protect the environment.

3. The external materials and finishes of the proposed development shall match those of the existing structures on site.

Reason: To integrate the structure into the surrounding area.

4. Prior to commencement of development, the developer shall prepare a Resource Waste Management Plan (RWMP) as set out in the EPA's Best Practice Guidelines for the Preparation of Resource and Waste Management Plans for Construction and Demolition Projects (2021), including a demonstration of proposals to adhere to best practice and protocols. The RWMP shall include specific proposals as to how the RWMP will be measured

and monitored for effectiveness; these details shall be placed on file and retained as part of the public record. The RWMP shall be submitted to the planning authority for written agreement prior to commencement of development. All records (including for waste and all resources) pursuant to the agreed RWMP shall be made available for inspection at the site office at all times.

Reason: In the interest of sustainable waste management.

5. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Coimisiún Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
