

Board Direction BD-018123-24 ABP-320068-24

The submissions on this file and the Inspector's report were considered at a Board meeting held on 08/11/2024.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

## **Reasons and Considerations**

The proposed development, which is seeking permission for the provision of one number dwelling, treatment unit, percolation area and all associated site services, complies with the provisions of the Galway County Development Plan 2022-2028. It is considered that, subject to compliance with the conditions set out below, the proposed development would not be out of character with the surrounding area, would not seriously injure the visual amenities of the area and would, therefore, be in accordance with the proper planning and sustainable development of the area.

## **Appropriate Assessment Screening**

The Board noted that the proposed development is not directly connected with or necessary to the management of a European Site. In completing the screening for Appropriate Assessment, the Board accepted and adopted the screening assessment and conclusion carried out in the Inspector's report in respect of

identification of the European Sites which could potentially be affected, and the identification and assessment of the potential likely significant effects of the proposed development, either individually or in combination with other plans or projects on these European Sites in view of the sites' conservation objectives and that a Stage 2 Appropriate Assessment is not, therefore, required.
