Board Direction BD-018863-25 ABP-320825-24

The submissions on this file and the Inspector's report were considered at a Board meeting held on 07/02/2025.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the 'R1-New Residential' land use zoning of the site that allows residential land use under the provisions of the Waterford City and County Development Plan 2022-2028, to the 'Key Town' designation of Dungarvan / Ballinroad, to the nature of the proposed development and to the pattern of development in the surrounds, it is considered that subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential nor visual amenities of the area nor the amenities of property in the vicinity and would constitute an acceptable form of development at this location. The proposed development, would, therefore, be in accordance with the proper planning and sustainable development of the area.

Appropriate Assessment Screening

The Board noted that the proposed development is not directly connected with or necessary to the management of a European site. In completing the screening for Appropriate Assessment, the Board accepted and adopted the screening assessment and conclusion carried out in the Inspector's report in respect of

identification of the European sites which could potentially be affected, and the identification and assessment of the potential likely significant effects of the proposed development, either individually or in combination with other plans and projects, on these European sites in view of the site's conservation objectives, and concluded that a Stage 2 Appropriate Assessment is not required.
