5. Amplified music or other specific entertainment noise emissions from the premises shall not exceed the background noise level by more than 3 dB(A)

during the period 0800 to 2200 hours and by more than 1 dB(A) at any other time, when measured at any external position adjoining an occupied dwelling in the vicinity. The background noise level shall be taken as L90 15 mins and the specific noise shall be measured at LAeq,T 15min.
