**Re: Amending Board Order**  
**S146A of the Planning and Development Act, 2000, as amended**

The submissions on this file were considered at a Board meeting held on 28/03/2025.

The Board decided that (a) the making of the alterations subject of this request do not constitute the making of a material alteration of the terms of the development as approved under ABP-300493-17, and (b) the proposed modifications will not give rise to significant environmental effects or significant effects on the integrity of any European site. In making its decision, the Board had regard to the following reason and considerations.

### **Reasons and Considerations**

In coming to its decision, the Board had regard to the following:

- (a) The nature and scale of the proposed alterations,
- (b) The documentation on file, and
- (c) The report of the Inspector.

Having regard to:

- The nature and scale of the development approved under ABP-300493-17 for the N5 Ballaghaderreen to Scramoge Road Project and associated site works.
- The examination of the environmental impact, including in relation to Natura 2000 sites, carried out in the course of that application,

- The limited nature and scale of the alterations when considered in relation to the overall scale of the approved N5 Ballaghaderreen to Scramoge Road development,
- The location of the proposed alterations, within the footprint of the approved N5 Ballaghaderreen to Scramoge Road development site.
- The absence of any significant new or additional environmental impacts (including in relation to Natura 2000 sites) arising as a result of the proposed alterations, and
- the report of the Board's inspector, which is adopted,

It is considered that the proposed alterations would not be material. In accordance with section 146B(3)(a) of the Planning & Development Act, the Board hereby makes the said alterations.
