The submissions on this file and the Inspector's report were considered at a meeting held on 17/07/2025.

The Commission decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Planning

Commissioner:

Liam McGree
Liam McGree

Date: 22/07/2025

DRAFT WORDING FOR ORDER

Reasons and Considerations

Having regard to the location of the subject site in an established urban area, within walking distance of Portlaoise town centre, and adjoining a number of employment centres it is considered that, the proposed development would constitute an acceptable residential density in this urban location, would be acceptable in terms of layout, height, scale and design, would provide a suitable level of amenity for future residents, would not seriously injure the amenities of the area or of property in the vicinity, would be acceptable in terms of traffic safety and convenience, would be served by adequate parking and environmental services, and would comply with: the provisions of the development plan; the Sustainable Urban Housing: Design Standards for New Apartments – Guidelines for Planning Authorities issued by the

Department of Housing, Planning and Local Government in March 2018; and the Sustainable Residential Development and Compact Settlement Guidelines 2024, notwithstanding the specific material contravention by reference to zoning (the Commission notes and shares the conclusions of the planning authority and elected members on the matter of the suitability of this specific proposed development on these specific lands). The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars received by the planning authority on the 12th day of November 2024, and clarification of further information on the 9th of December 2024, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The first-floor bathroom window on the rear elevation of each of the 6 no. dwellings shall be of opaque glazing only.

Reason: In the interest of protecting the residential amenity of dwellings to the north

3. Details of the construction of a 2m high boundary wall, along the northern boundary of the subject site shall be submitted to, and agreed in writing with, the planning authority, prior to commencement of construction of the dwellings.

Reason: in the interest of visual and residential amenity

4. (a) Prior to the commencement of development, the developer shall obtain a road opening licence for works to the public road and footpath/cycleway to facilitate the development of an entrance to the subject site from the public road and for proposed service connections.

(b) The developer shall carry out a detailed Stage 3 Road Safety Audit (RSA) by an independent approved and certified auditor, for the proposed development. The developer shall submit to the planning authority a copy of the RSA Stage 3 report and shall complete all of the remedial measures identified in the RSA Stage 3 Report, prior to opening the scheme to traffic. The developer shall be liable for all costs associated with these works.

(c) Not more than six months following occupation of the development hereby approved, a Stage 4 Road Safety Audit (RSA) shall be completed by an independent Road Safety Audit Team, comprised of TII approved auditors, and this audit report shall be submitted for the written approval of the planning authority. Recommendations arising from the audit shall be agreed with the planning authority, and implemented, as appropriate, at the sole expense of the developer.

(d) Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or such other security as may be acceptable to the planning authority, to secure the satisfactory reinstatement of the public road and footpath/cycleway to the front of the subject site, coupled with an agreement empowering the planning authority to apply such security or part thereof to such reinstatement. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Coimisiún Pleanála for determination.

Reason: In the interest of traffic safety.

5. The site shall be landscaped in accordance with a comprehensive scheme of landscaping, details of which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

All planting shall be adequately protected from damage until established. Any plants which die, are removed or become seriously damaged or diseased, within a period of five years from the completion of the development shall be replaced within the next planting season with others of similar size and species, unless otherwise agreed in writing with the planning authority.

Reason: In the interest of residential and visual amenity.

6. Prior to the commencement of development, the developer shall enter into a Connection Agreement with Uisce Éireann (Irish Water) to provide for a service connection to the public water supply.

Reason: In the interest of public health and to ensure adequate water/wastewater facilities.

7. Water supply and drainage arrangements, including the disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health

8. The construction of the development shall be managed in accordance with a Construction and Environmental Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including noise and dust management measures, environmental protection measures and traffic management arrangements.

Reason: In the interest of public safety, environmental protection, and residential amenity

9. Hours of work shall be confined to 0700 to 1900 Mondays to Fridays inclusive, excluding bank holidays, and 0800 to 1400 hours on Saturdays. Deviation from these times will only be allowed in exceptional circumstances subject to the prior written agreement of the planning authority.

Reason: In the interest of residential amenities of surrounding properties and in the interest of clarity.

10. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development.

Reason: In the interests of visual and residential amenity.

11. Proposals for an estate/street name, house numbering scheme and associated signage (in Irish and English) shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, all estate and street signs, and house numbers, shall be provided in accordance with the agreed scheme. The proposed name shall be based on local historical or topographical features, or other alternatives acceptable to the planning authority. No advertisements/marketing signage relating to the name of the development shall be erected until the developer has obtained the planning authority's written agreement to the proposed name.

Reason: In the interests of urban legibility and to ensure the use of locally appropriate placenames for new residential areas.

12. Prior to commencement of development, the applicant or other person with an interest in the land to which the application relates shall enter into an agreement in writing with the planning authority in relation to the provision of social and affordable housing in accordance with the requirements of section 96 of the Planning and Development Act 2000, as amended, unless an exemption certificate shall have been applied for and been granted under section 97 of the Act, as amended. Where such an agreement is not reached within eight weeks from the date of this order, the matter in dispute (other than a matter to which section 97(7) applies) may be referred by the planning authority or any other prospective party to the agreement to the Board for determination.

Reason: To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan for the area.

13. (a) Prior to the commencement of the development as permitted, the applicant or any person with an interest in the land shall enter into an agreement with the planning authority (such agreement must specify the number and location of each house or duplex unit), pursuant to Section 47 of the Planning and Development Act 2000, that restricts all relevant residential units permitted, to first occupation by individual purchasers i.e. those not being a corporate entity, and/or by those eligible for the occupation of social and/or affordable housing, including cost rental housing.

(b) An agreement pursuant to Section 47 shall be applicable for the period of duration of the planning permission, except where after not less than two years from the date of completion of each specified housing unit, it is demonstrated to the satisfaction of the planning authority that it has not been possible to transact each of the residential units for use by individual purchasers and/or to those eligible for the occupation of social and/or affordable housing, including cost rental housing.

(c) The determination of the planning authority as required in (b) shall be subject to receipt by the planning and housing authority of satisfactory

documentary evidence from the applicant or any person with an interest in the land regarding the sales and marketing of the specified housing units, in which case the planning authority shall confirm in writing to the applicant or any person with an interest in the land that the Section 47 agreement has been terminated and that the requirement of this planning condition has been discharged in respect of each specified housing unit.

Reason: To restrict new housing development to use by persons of a particular class or description in order to ensure an adequate choice and supply of housing, including affordable housing, in the common good.

14. The management and maintenance of the communal open space areas, vehicular access and car/bicycle parking spaces shall be the responsibility of a legally constituted management company. A management scheme providing adequate measures for the future maintenance of public open spaces, roads and communal areas shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: To provide for the satisfactory future maintenance of this development in the interest of residential amenity.

15. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or other security to secure the provision and satisfactory completion of roads, footpaths, watermains, drains, open space and other services required in connection with the development, coupled with an agreement empowering the local authority to apply such security or part thereof to the satisfactory completion of any part of the development. The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Bord Pleanála for determination.

Reason: To ensure the satisfactory completion of the development.

16. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
