The submissions on this file and the Inspector's report were considered at a meeting held on 08/07/2025.

The Commission decided to grant permission, for the following reasons and considerations, and subject to the following conditions.

Planning

Commissioner: *Eamonn James Kelly* **Date:** 08/07/2025

Eamonn James Kelly

DRAFT WORDING FOR ORDER

Reasons and Considerations

Having regard to the Waterford City and County Development Plan 2022-2028, to the location of the proposed development in a site zoned 'Agriculture' providing for the development of agriculture and the protection and improvement of rural amenity, to the situation of the site within an 'Area of Strong Urban Influence', it is considered that, subject to compliance with the conditions set out below, the proposed development would facilitate the provision of single housing in a rural area under urban influence based on the core consideration of demonstrable need to live in a rural area and would be consistent with Policy Objective H28 of the Development Plan.

In deciding not to accept the Inspector's recommendation to refuse permission, the Commission noted Section 7.11.4 of the Development Plan clearly defines ribbon development 'where five or more houses exist on any one side of a given 250 metres of road frontage'. As the fourth dwelling within 250 metres of road frontage, the Commission does not consider that the proposed development will of itself create, contribute to, or exacerbate such ribbon development as set out in Policy Objective H29 of the Development Plan.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. (a) The proposed dwelling, when completed, shall be first occupied as a place of permanent residence by the applicant, members of the applicant's immediate family or their heirs, and shall remain so occupied for a period of at least seven years thereafter unless consent is granted by the planning authority for its occupation by other persons who belong to the same category of housing need as the applicant. Prior to commencement of development, the applicant shall enter into a written agreement with the planning authority under section 47 of the Planning and Development Act, 2000 to this effect.
- (b) Within two months of the occupation of the proposed dwelling, the applicant shall submit to the planning authority a written statement of

confirmation of the first occupation of the dwelling in accordance with paragraph (a) and the date of such occupation.

This condition shall not affect the sale of the dwelling by a mortgagee in possession or the occupation of the dwelling by any person deriving title from such a sale.

Reason: To ensure that the proposed house is used to meet the applicant's stated housing needs and that development in this rural area is appropriately restricted to meeting essential local need in the interest of the proper planning and sustainable development of the area

3. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

4. Details of the materials, colours and textures of all the external finishes to the proposed dwelling shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

5. (a) All surface water generated within the site boundaries shall be collected and disposed of within the curtilage of the site. No surface water from roofs, paved areas or otherwise shall discharge onto the public road or adjoining properties.

(b) The access driveway to the proposed development shall be provided with adequately sized pipes or ducts to ensure that no interference will be caused to

existing roadside drainage.

Reason: In the interest of traffic safety and to prevent flooding or pollution.

6. (a) The septic tank/wastewater treatment system hereby permitted shall be installed in accordance with the recommendations included within the site characterisation report submitted with this application and shall be in accordance with the standards set out in the document entitled "Code of Practice - Domestic Waste Water Treatment Systems (Population Equivalent \leq 10) " – Environmental Protection Agency, 2021.

(b) Treated effluent from the septic tank/ wastewater treatment system shall be discharged to a percolation area/ polishing filter which shall be provided in accordance with the standards set out in the document entitled "Code of Practice - Domestic Waste Water Treatment Systems (Population Equivalent \leq 10)" – Environmental Protection Agency, 2021.

(c) Within three months of the first occupation of the dwelling, the developer shall submit a report to the planning authority from a suitably qualified person (with professional indemnity insurance) certifying that the septic tank/ wastewater treatment system and associated works is constructed and operating in accordance with the standards set out in the Environmental Protection Agency document referred to above.

Reason: In the interest of public health and to prevent water pollution

7. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may

facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Coimisiún Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
