### **DRAFT WORDING FOR ORDER**

#### **Reasons and Considerations**

Having regard to the location of the existing residential site within the built up area of Dublin city on zoned and serviced lands, the provisions of Dublin City Development Plan 2022-2028, the established pattern of residential development in the Z2 Conservation Area and the nature and scale of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would be appropriate in terms of design, scale and layout, would not result in the creation of a traffic hazard and would not seriously injure the residential amenities of neighbouring properties in the area or the character of the

conservation area. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.
