The submissions on this file and the Inspector's report were considered at a meeting held on 02/12/2025.

The Commission decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Planning

Commissioner:

Marie O'Connor

Date: 02/12/2025

DRAFT WORDING FOR ORDER

Reasons and Considerations

Having regard to the provisions of the Wicklow County Council Development Plan 2022-2028, to the location of the site in an area identified to be under urban influence, the satisfactory demonstration of housing need in accordance with CPO 6.41 and to the prevailing pattern and character of existing development in the vicinity and to the nature and scale of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential or visual amenities of the area or of property in the vicinity, would not be prejudicial to public health, and would be

acceptable in terms of traffic safety and convenience. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars received by the planning authority on the 21st day of May, 2025, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. (a) The proposed dwelling, when completed, shall be first occupied as a place of permanent residence by the applicant, members of the applicant's immediate family or their heirs, and shall remain so occupied for a period of at least seven years thereafter unless consent is granted by the planning authority for its occupation by other persons who belong to the same category of housing need as the applicant. Prior to commencement of development, the applicant shall enter into a written agreement with the planning authority under section 47 of the Planning and Development Act, 2000 to this effect.
- (b) Within two months of the occupation of the proposed dwelling, the applicant shall submit to the planning authority a written statement of

confirmation of the first occupation of the dwelling in accordance with paragraph (a) and the date of such occupation.

This condition shall not affect the sale of the dwelling by a mortgagee in possession or the occupation of the dwelling by any person deriving title from such a sale.

Reason: To ensure that the proposed house is used to meet the applicant's stated housing needs and that development in this rural area is appropriately restricted in the interest of the proper planning and sustainable development of the area.

3. Water to supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the detailed requirements of the planning authority for such works and services.

Reason: In the interest of clarity.

4. Details of the materials, colours and textures of all the external finishes of the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

5. All surface water generated within the site boundaries shall be collected and disposed of within the curtilage of the site. No surface water from roofs, paved areas or otherwise shall discharge onto the public road or adjoining properties.

Reason: In the interest of traffic safety and to prevent pollution.

6. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground.

Reason: In the interests of visual and residential amenity.

7. (a) The treatment system shall be located, constructed and maintained in accordance with the details submitted to the planning authority, and in accordance with the requirements of the document "Wastewater Treatment Manual: Treatment Systems for Single Houses (P.E. < 10)", issued by the Environmental Protection Agency in 2021. No system other than the type proposed shall be installed unless agreed in writing with the planning authority.
- (b) Within three months of the first occupation of the dwelling, the developer shall submit a report from a suitably qualified person with professional indemnity insurance certifying that the Tertiary Treatment System Infiltration/treatment area is constructed in accordance with the standards set out in the EPA document.

Reason: In the interest of public health.

8. The construction and demolition works shall be in accordance with the Construction and Traffic Management Plan submitted to the planning authority on the 21st day of May 2025.

Reason: In the interests of public safety and amenity.

9. The site shall be landscaped, using only indigenous deciduous trees and hedging which shall be submitted to and agreed in writing with the planning authority prior to commencement of development. A timescale for

implementation of the scheme shall be agreed in writing with the planning authority prior to commencement of development.

Reason: In order to screen the development and assimilate it into the surrounding rural landscape in the interest of visual amenity.

10. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

11. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefitting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Coimisiún Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the

Development Contribution Scheme made under section 48 of the Act be applied to the permission.
