DRAFT WORDING FOR ORDER

Reasons and Considerations

It is considered that it has not been shown that the development in respect of which a decision to grant permission has been made will differ materially from the

development as set out in the application for permission by reason of conditions imposed by the planning authority to which the grant is subject. No condition attached in the planning authority's decision resulted in a development that was materially different from the original application or the further information submitted to the planning authority during the course of the application.
