The submissions on this file and the Inspector's report were considered at a meeting held on 21 July 2026.

The Commission decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Planning Commissioner:

Mary Gurrie
Mary Gurrie

Date: 24/07/2026

DRAFT WORDING FOR ORDER

Reasons and Considerations

Having regard to the nature and scale of the proposed development on lands zoned RES under the South Dublin County Development Plan 2022-2028, where

residential use is permitted in principle, and to the policies and objectives of the said plan in support of compact growth and the sustainable intensification of development, it is considered that, subject to compliance with the conditions set out below, the proposed development would constitute an acceptable quantum and density of development in this urban brownfield location, would not seriously injure the residential or visual amenities of the area or of property in the vicinity, would be acceptable in terms of urban design, height and scale of development, would be acceptable in terms of impacts on traffic and pedestrian safety, would provide an acceptable form of residential amenity for future occupants, and would be capable of being adequately served by wastewater and water supply networks. The proposed development would be consistent with the provisions of the South Dublin County Development Plan 2022-2028, and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application on the 20th day of August 2025, and as amended by further information received 20th day of February 2026, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Details of revised plans and cross sections demonstrating provision of a direct access from the footpath on Newlands Road into the public open space shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of amenity.

3. Details of the materials, colours and textures of all the external finishes to the proposed dwellings shall be as submitted in the application unless otherwise agreed in writing with the planning authority prior to commencement of development.

Reason: In the interest of visual amenity and to ensure an appropriate high standard of development.

4. (a) The communal open spaces, including hard and soft landscaping and access ways, and all areas not intended to be taken in charge by the local authority, shall be maintained by a legally constituted management company.

(b) Details of the management company contract, and drawings/particulars describing the parts of the development for which the company would have responsibility, shall be submitted to, and agreed in writing with, the planning authority before any of the residential units are made available for occupation.

Reason: To provide for the satisfactory future maintenance of this development in the interest of residential amenity.

5. The boundary planting and public open spaces shall be landscaped in accordance with the landscape scheme submitted to the planning authority with the application, unless otherwise agreed in writing with the planning authority. The landscape scheme shall be implemented fully in the first planting season following completion of the development, and any trees or shrubs which die or are removed within three years of planting shall be replaced in the first planting season thereafter. This work shall be completed before any of the dwellings are made available for occupation. Access to green roof areas shall be strictly prohibited unless for maintenance purposes.

Reason: In the interest of residential and visual amenity.

6. Public lighting shall be provided in accordance with a scheme which shall be submitted to and agreed in writing with the planning authority prior to the commencement of development. The scheme shall include lighting along pedestrian routes through open spaces. Such lighting shall be provided prior to the making available for occupation of any residential unit.

Reason: In the interest of amenity and public safety.

7. The car parking facilities hereby permitted shall be reserved solely to serve the proposed development. Prior to the occupation of the development, a Parking Management Plan shall be prepared for the development and shall be submitted to and agreed in writing with the planning authority. This plan shall provide for the permanent retention of the designated residential parking spaces and shall indicate how these and other spaces within the development shall be assigned, segregated by use and how the car park shall be continually managed.

Reason: To ensure that adequate parking facilities are permanently available to serve the proposed residential units.

8. A minimum of 20% of all car parking spaces should be provided with functioning EV charging stations/points, and ducting shall be provided for all remaining car parking spaces, including in-curtilage spaces, facilitating the installation of EV charging points/stations at a later date.

Reason: To provide for and/or future proof the development such as would facilitate the use of Electric Vehicles.

9. Drainage arrangements including the attenuation and disposal of surface water shall comply with the requirements of the relevant Section of the Council for such works and services. Prior to the commencement of development, the developer shall submit to the planning authority for written agreement a Stage 2-Detailed Design Stage Storm Water Audit. Upon completion of the development a Stage 3 Completion Stormwater Audit to demonstrate Sustainable Urban Drainage System measures have been installed and are working as designed and that there has been no misconnections or damage to storm water drainage infrastructure during construction, shall be submitted to the planning authority for written agreement.

Reason: In the interest of public health and surface water management.

10. Prior to the commencement of development, the developer shall enter into a Connection Agreement with Uisce Éireann to provide for a service connection to the public water supply and wastewater collection network.

Reason: In the interest of public health and to ensure adequate water/wastewater facilities.

11. All service cables associated with the proposed development such as electrical, telecommunications and communal television shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development.

Reason: In the interests of visual and residential amenity.

12. Proposals for a duplex/apartment naming/numbering scheme and associated signage shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, all signs, and apartment numbers, shall be provided in accordance with the agreed scheme. The proposed names shall be based on local historical or topographical features, or other alternatives acceptable to the planning authority. No advertisements/marketing signage relating to the name(s) of the development shall be erected until the developer has obtained the planning authority's written agreement to the proposed name(s).

Reason: In the interest of urban legibility and to ensure the use of locally appropriate place names for new residential areas.

13. Operational Waste Management Plan. The applicant shall submit to the planning authority (Waste Regulation) for written agreement a site-specific operational waste management plan to ensure management of all waste within the curtilage of the development during its operational phase. The plan shall include

details in relation to waste segregation and collection, monitoring and security of waste contained areas.

Reason: In the interests of public health, residential amenities and sustainable development.

14. Site development and building works shall be carried out between the hours of 0700 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 on Saturdays and not at all on Sundays and public holidays. Deviation from these times shall only be allowed in exceptional circumstances where prior written agreement has been received from the planning authority.

Reason: To safeguard the amenity of property in the vicinity.

15. Prior to commencement of works, the developer shall submit to, and agree in writing with the planning authority, a Construction Management Plan, which shall be adhered to during construction. This plan shall provide details of intended construction practice for the development, including noise and dust management measures and off-site disposal of construction/demolition waste.

Reason: In the interest of public safety and amenity.

16. Prior to the commencement of development, the developer or any agent acting on its behalf, shall prepare a Resource Waste Management Plan (RWMP) as set out in the Environmental Protection Agency's Best Practice Guidelines for the Preparation of Resource and Waste Management Plans for Construction

and Demolition Projects (2021) including demonstration of proposals to adhere to best practice and protocols. The RWMP shall include specific proposals as to how the RWMP will be measured and monitored for effectiveness; these details shall be placed on the file and retained as part of the public record. The RWMP must be submitted to the planning authority for written agreement prior to the commencement of development. All records (including for waste and all resources) pursuant to the agreed RWMP shall be made available for inspection at the site office at all times.

Reason: In the interest of proper planning and sustainable development.

17. (a) Prior to the commencement of any own door apartments and duplex unit in the development as permitted, the applicant or any person with an interest in the land shall enter into an agreement with the planning authority (such agreement must specify the number and location of each own door apartment and duplex unit), pursuant to Section 47 of the Planning and Development Act, 2000, as amended, that restricts all own door apartments and duplex units permitted, to first occupation by individual purchasers i.e. those not being a corporate entity, and/or by those eligible for the occupation of social and/or affordable housing, including cost rental housing.

(b) An agreement pursuant to Section 47 shall be applicable for the period of duration of the planning permission, except where after not less than two years from the date of completion of each specified housing unit, it is demonstrated to the satisfaction of the planning authority that it has not been possible to transact each specified house unit or duplex for use by individual purchasers and/or to

those eligible for the occupation of social and/or affordable housing, including cost rental housing.

(c) The determination of the planning authority as required in (b) shall be subject to receipt by the planning and housing authority of satisfactory documentary evidence from the applicant or any person with an interest in the land regarding the sales and marketing of the specified housing units, in which case the planning authority shall confirm in writing to the applicant or any person with an interest in the land that the Section 47 agreement has been terminated and that the requirement of this planning condition has been discharged in respect of each specified housing unit.

Reason: To restrict new housing development to use by persons of a particular class or description in order to ensure an adequate choice and supply of housing, including affordable housing, in the common good.

18. Prior to commencement of development, the applicant or other person with an interest in the land to which the application relates shall enter into an agreement in writing with the planning authority in relation to the transfer of a percentage of the land, to be agreed with the planning authority, in accordance with the requirements of section 94(4), and section 96(2), and 96(3)(a), (Part V) of the Planning and Development Act 2000, as amended, and/or the provision of housing on lands in accordance with the requirements of section 94(4), and section 96(2), and 96(3) (b), (Part V) of the Planning and Development Act 2000, as amended, unless an exemption certificate has been granted under section 97 of the Act, as amended. Where such an agreement cannot be reached between

the parties, the matter in dispute (other than a matter to which section 96(7) applies) shall be referred by the planning authority or any other prospective party to the agreement, to An Coimisiún Pleanála for determination.

Reason: To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan of the area.

19. Prior to commencement of development, the developer shall lodge with the planning authority a cash deposit, a bond of an insurance company, or such other security as may be acceptable to the planning authority, to secure the reinstatement of public roads which may be damaged by the transport of materials to the site, coupled with an agreement empowering the planning authority to apply such security or part thereof to the satisfactory reinstatement of the public road.

The form and amount of the security shall be as agreed between the planning authority and the developer or, in default of agreement, shall be referred to An Coimisiún Pleanála for determination.

Reason: In the interest of traffic safety and the proper planning and sustainable development of the area.

20. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of

development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Coimisiún Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
