The submissions on this file and the Inspector's report were considered at a meeting held on 16 October 2026.

The Commission decided to grant permission generally in accordance with the Inspector's recommendation, as indicated in the draft Order hereunder.

Planning Commissioner:

Tom Rabbette

Date: **16th day of October 2026**

Reasons and Considerations

Having regard to Objective KCDP 5-15 'Rural Areas under Urban Influence' and development standards of the Kerry County Development Plan 2022-2028, specifically to KCDP 5-22 to ensure that the design of housing in rural areas comply with the Building a house in Rural Kerry Design Guidelines 2009 or any update of the guidelines and Section 11.6.3.2 Rural General and Objectives KCDP 11-77 and

KCDP 11-78, 11.6.3 Visually Sensitive Area as they relate to the nature, scale and design of proposed development relative to landscape context, and to the existing pattern of development in the wider area, it is considered that subject to compliance with the conditions set out below, the proposed development would be an acceptable form of development at this location, would not seriously injure the amenities of adjoining properties and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The site shall be landscaped in accordance with a comprehensive scheme of landscaping, details of which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This scheme shall include the following:

(a) A plan to scale of not less than 1:250 showing –

(i) The recessed roadside boundary shall be reinstated with a double row of native hedgerow common to the

locality. The proposed entrance shall be limited to two number piers at the entrance gate only. The entrance splay shall be planted with a double row of native hedgerow consistent with the recessed roadside boundary. The existing roadside verge shall remain unobstructed by vegetation.

(ii) Proposals to enhance the southern site boundary with additional hedgerow and native tree screening. Details of screen planting which shall not include cupressocyparis x leylandii shall be submitted.

(iii) The location and dentification of trees to be retinted to the front of the site.

(iv) The species, variety, number, size and locations of all proposed trees and shrubs which shall comprise predominantly native species such as mountain ash, birch, willow, sycamore, pine, oak, hawthorn, holly, hazel, beech or alder which shall not include prunus species.

(b) A timescale for implementation.

All planting shall be adequately protected from damage until established. Any plants which die, are removed or become seriously damaged or diseased, within a period of five years from the completion of the development shall be replaced within the next planting season with others of similar size and species, unless otherwise agreed in writing with the planning authority.

Reason: In the interest of residential and visual amenity.

3. Prior to the commencement of development, the developer shall enter into a Connection Agreement with Uisce Éireann to provide for a service connection to the public water supply and wastewater collection network.

Reason: in the interest of public health and to ensure adequate water/ wastewater facilities.

4 (a) All surface water generated within the site boundaries shall be collected and disposed of within the curtilage of the site. No surface water from roofs, paved areas or otherwise shall discharge onto the public road or adjoining properties.

(b) The access driveway to the proposed development shall be provided with adequately sized pipes or ducts to ensure that no interference will be caused to existing roadside drainage.

(c) The positioning of all soakaways shall comply with the 2021 EPA Code of Practice entitled. All soakaways shall be designed in accordance with BRE DG 365:2016. All hard stand areas contiguous with the dwelling shall have separate drainage pathways.

Full design details of the vehicular entrance to the site, including drainage along the public road, shall be submitted for the written agreement of the planning authority prior to the commencement of any development on site.

Reason: In the interest of traffic safety and to prevent flooding or pollution.

5. Details of the materials, colours and textures of all the external finishes, including a sample, if required, of the proposed timber cladding, to the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

6. All public services to the permitted development, including electrical, telephone cables and associated equipment shall be located underground throughout the entire site.

Reason: In the interest of amenity.

7. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: To safeguard the amenity of property in the vicinity.

8. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under Section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as

the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer, or, in default of such agreement, the matter shall be referred to An Coimisiún Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under Section 48 of the Act be applied to the permission.

9. (a) The proposed dwelling, when completed, shall be first occupied as a place of permanent residence by the applicant, members of the applicant's immediate family or their heirs, and shall remain so occupied for a period of at least seven years thereafter unless consent is granted by the planning authority for its occupation by other persons who belong to the same category of housing need as the applicant. Prior to commencement of development, the applicant shall enter into a written agreement with the planning authority under section 47 of the Planning and Development Act, 2000 to this effect.

(b) Within two months of the occupation of the proposed dwelling, the applicant shall submit to the planning authority a written statement of confirmation of the first occupation of the dwelling in accordance with paragraph (a) and the date of such occupation. This condition shall

not affect the sale of the dwelling by a mortgagee in possession or the occupation of the dwelling by any person deriving title from such a sale.

Reason: To ensure that the proposed house is used to meet the applicant's stated housing needs and that development in this rural area is appropriately restricted [to meeting essential local need] in the interest of the proper planning and sustainable development of the area
