

## Board Direction

---

**Ref: 06D.JD0026**

At a meeting held on 6<sup>th</sup> January 2017, the Board considered the documents and submissions on file and the report and recommendation of the Planning Inspector.

The Board noted the response of the planning authority received by ABP on 5<sup>th</sup> October 2016, including details in relation to traffic conditions locally. The Board agreed with the inspector that the proposed crematorium, which will operate outside of peak morning and evening traffic time, would not be likely to have significant effects on the local road network, notwithstanding that some peak-hour localised congestion is acknowledged by the planning authority. The Board was satisfied that further circulation of responses and submissions was not necessary.

The Board decided not to direct the preparation of an Environmental Impact Statement, generally in accordance with the recommendation of the Inspector. Reasons and Considerations in accordance with the attached Draft Order (with manuscript amendments).
