

An Bord Pleanála

Board Direction

Ref:05. RL3489

The submissions on this file and the Inspector's report were considered at a Board meeting held on 14th September 2016.

The Board decided to defer consideration of this case noting that there were a number of referral cases which should be looked at prior to making a decision on the matter. It therefore decided to seek an addendum report on the matter from the inspector which should examine the decisions made under the following cases: RL 2340, RL 3095, RL 2290, RL 2115, RL 2074, RL 3069, RL 2747, RL 2211, RL 2818 and RL2661. The addendum report should examine whether these decisions should inform the matter of whether the underground tanks the subject of the current referral should be considered as a separate structure from the buildings which they serve as well as any other matters relevant to the current referral.
