

An Bord Pleanála

Board Direction

Ref: 04.VC0104

The submissions on this file and the Inspector's report were considered at a Board meeting held on 11th April 2017.

The Board decided, generally in accordance with the reasoning set out in the Inspector's recommendation, and taking into account its nature and purpose, the proposed development – which replaces two permitted substations associated with permitted wind farms, thereby connecting the proposed wind energy development back to an existing node on the national grid - does not constitute strategic infrastructure development. A planning application should be made in the first instance to Cork County Council.
