Subject: RE: ABP-315693-23 - 1st meeting record

Hi Shaun,

Thank you again for the Record of the meeting.

Just a couple of minor clarifications – that I suggest don't in any way conflict with the Board's record of the meeting.

- Page 3 2nd Para: to confirm in the presentation, EirGrid has 294 existing projects, and 40 new projects as part of its pipeline, of which 24 (of the new projects) are upgrades.
- Page 3 3rd Para: to confirm that the cable replacement is with higher **capacity** cables.
- Page 4 3rd Para re compounds: "details of deals with landowners" will not be included in any planning application, as these will be kept confidential. It is the details of the compounds themselves – location, size, layout etc – that will be contained in the planning application.

EirGrid is happy with the record, and now wishes to formally request the Board to close the pre-application process.

Kind regards and many thanks Shaun and Niamh,
Des

Subject: RE: ABP-315693-23 Upgrading of 4 no. existing 110 kV circuits and 1 no. existing 220 kV circuit

Hi Niamh,

I wonder if I could ask if you would know when we might expect to receive the Board's record of our meeting?

It would be very helpful from a project programming perspective if we were to be able to close the SID pre-application process over the next short while.

Kind regards and sincere thanks
Des
