Re: Arklow Sewerage Scheme Wastewater Treatment Plant, Ferrybank, Arklow, Co. Wicklow

Your Ref: 27.PC0202
Our Ref: 10001574-003

Dear Sir/Madame,

Thank you for issuing us with the written record from Pre-application Meeting No. 4 (6th May 2016). We would like to clarify some of the items discussed. Under the heading 'Other matters' (page 4 of the meeting record), there is commentary relating to the proposed Arklow Flood Relief project including the potential for interaction with the Wastewater Treatment Plant Project.

The written record states the preliminary design for a proposed flood relief scheme has recently been agreed with the Office of Public Works, however, our understanding is that the flood scheme design is actually only at 'assessment of options' stage and therefore a preliminary scheme design has not been fixed. At this juncture, it is anticipated that the most likely area of interaction of the physical works between the two projects would be on the southside of the river.

We would be grateful if the above could be noted for the record and we would apologise for any inadvertent misunderstanding.

Yours sincerely,

John Joyce
Irish Water Asset Programmes Regional Lead
